

International Edition

Bals
ELEKTROTECHNIK

We ask you to indicate our reference numbers and quantity packaging on all your purchase orders in order to facilitate an easy procedure of the order.

Return shipments based on wrong placed orders effects a tremendous procedure and costs and therefore in such cases we are obliged to apply a handling charge.

Weights, dimensions, technical details and sketches are carefully issued (error excepted) but not obligatory on deliveries. For technical reasons our products are subject to modification continuously due to creative, design and technical progress.

BALS ELEKTROTECHNIK - THE RIGHT CONNECTION

- MADE IN GERMANY -

With half a century of expertise and experience, Bals has become a quality brand all over the world and is renowned for its innovation, reliability and service.

For more than 50 years, we have been producing CEE plugs and connectors for the world markets.

From day one we have focussed on the highest level of quality "Made in Germany".

Our factories in Kirchhundem-Albaum and Freiwalde have highly skilled and motivated teams, the very latest manufacturing facilities and a highly efficient logistics system.

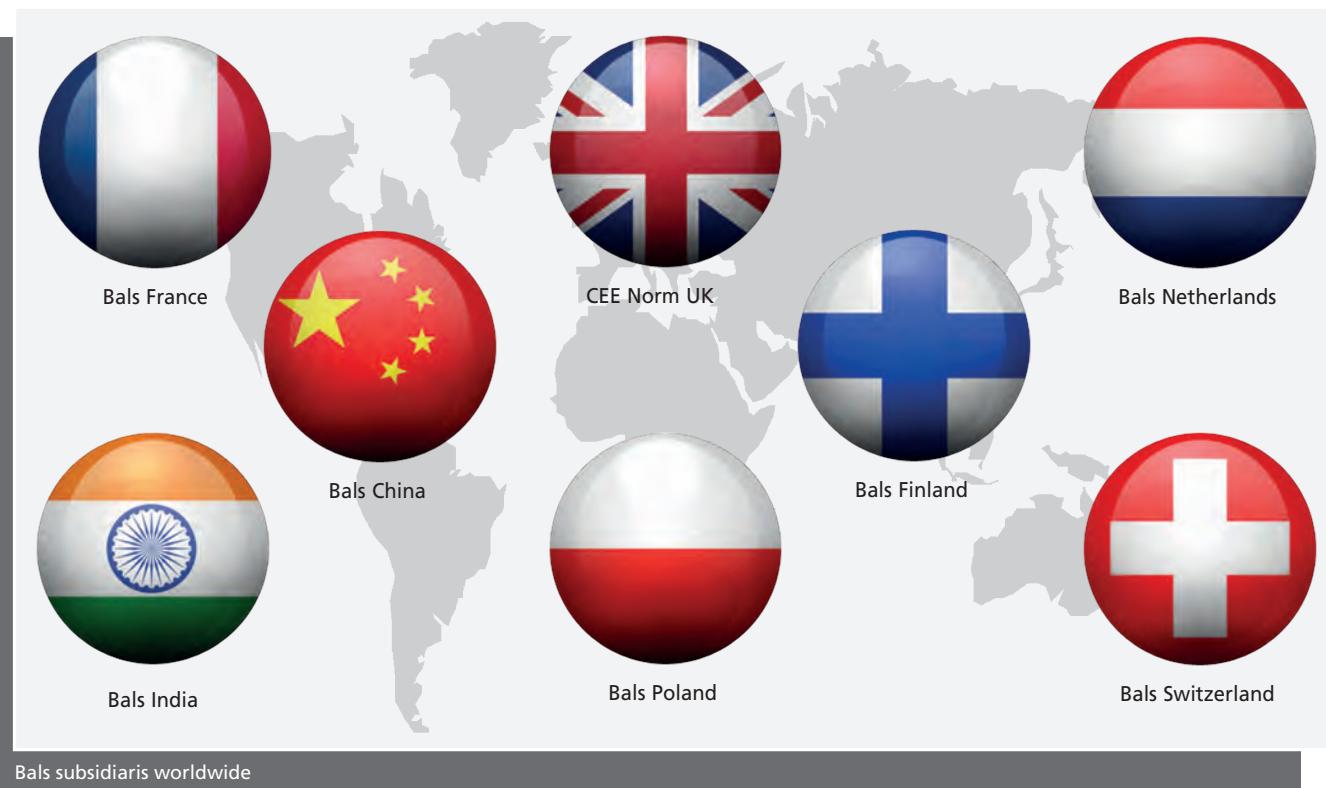

Our product portfolio ranges from plugs, phase inverters, connectors, sockets outlets and combinations units to special application devices.

Numerous certifications from German and foreign certification institutes, as well as registered designs and patents, document the high technical standard of our products.

A unique quality feature which has been developed exclusively by Bals is the maintenance-free Quick-Connect technology.

Factory in Kirchhundem-Albaum

Bals subsidiaris worldwide

WHEREVER OUR CUSTOMERS NEED US

- MUTUAL SUCCESS THROUGH DIALOGUE -

1

Proximity to customers is extremely important to us: We see ourselves as a partner for our customers and consider trust and continual dialogue to be extremely valuable. At the world's leading trade fairs, at conventions or directly on site: Our incentive is to support the success of our customers by providing tailor-made solutions.

Our sales teams are close to our customers all over the world and are always available to provide advice and support for complex technical requirements.

In Germany, a comprehensive sales network of 15 commercial agencies and 8 field representatives ensures close-knit and competent customer support. Abroad, we are present in important countries such as France, Switzerland, England, the Netherlands, Poland, Finland, Russia, India and China with sales subsidiaries of our own.

Furthermore, we cooperate in many countries with committed partners on an exclusive basis in a spirit of trust.

We regularly exhibit our products at international trade fairs

Bals at the TEMCA Exhibition in Pattaya (Thailand)

Bals stand at "Light + Building", the world's largest trade fair for light and building technology

CUSTOMISED SOLUTIONS FROM A SINGLE SOURCE - FROM INITIAL DESIGN TO THE FINISHED PRODUCT -

From the initial idea and the first design drawing to the finished product:

We deliver series-produced innovations from a single source. A high level of expertise across all stages of production makes it possible for us to precisely fulfil the individual needs of the customer.

For us, flexibility, proximity to the customer and goal orientation are a matter of course. For this reason, our integrated production – from the product idea and design to tool making and production to the shipment of the products – is optimised for short processing paths and the fastest response times just in time.

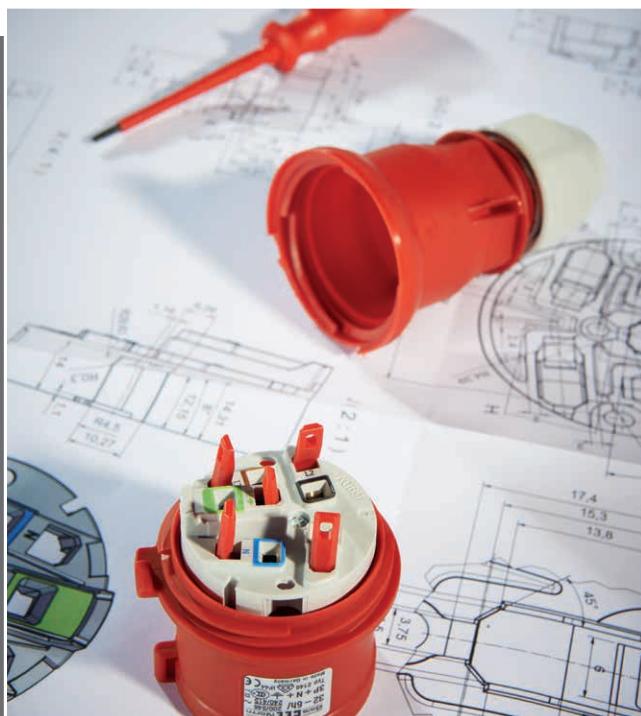

Our experienced engineers develop special solutions for special requirements. Numerous corporate groups and large companies in Germany and abroad rely on our products: railways, underground and opencast mining, power stations, renewable energy, ports and many more – our distributor combinations and plugs and sockets provide a high level of reliability and safety even under adverse conditions.

Our sales team is looking forward to receiving your call

From the initial drawing to the finished product ...

... with motivated staff and a modern CAD system

A PRODUCTION PROCESS THAT LEAVES NO WISH UNFULFILLED - PREMIUM QUALITY FOR YOUR REQUIREMENTS -

1

The ISO-9001-certified production process in all factories ensures the high product quality typical for which Bals is famous.

Modern injection moulding machines and automatic production lines guarantee the consistently high level of quality that you expect from a leading manufacturer.

Selected raw materials, a modern production process as well as continuous inspection and quality control ensure that you can rely on our combination units, plugs and sockets – one hundred percent, day by day, in every situation.

The high quality of the Bals devices, is reflected in their quality features:

impact resistant, dimensionally stable, self-extinguishing, abrasion-, cold-, and heat-resistant. Bals products convince by long service life and reliable operation.

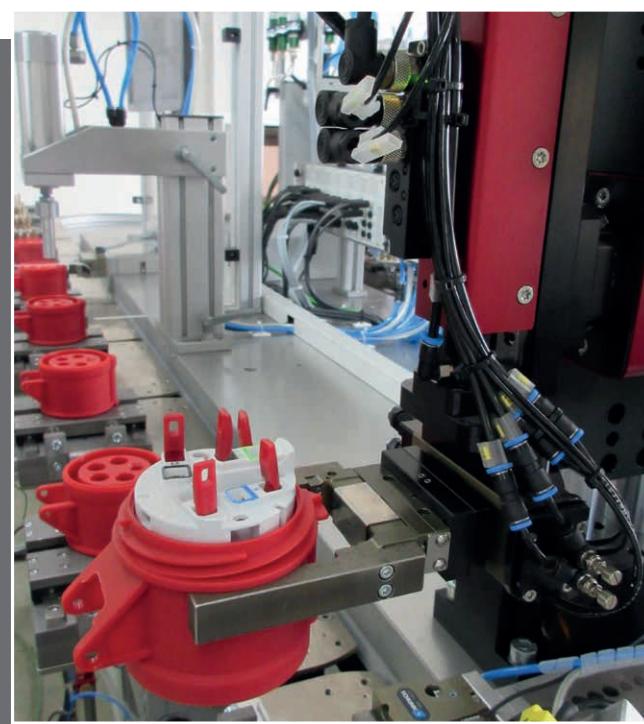

Our presence in more than 80 countries worldwide means that we are always close to the needs of customers. Bals products are also approved in North America, China and South Africa and are therefore ideal for use worldwide.

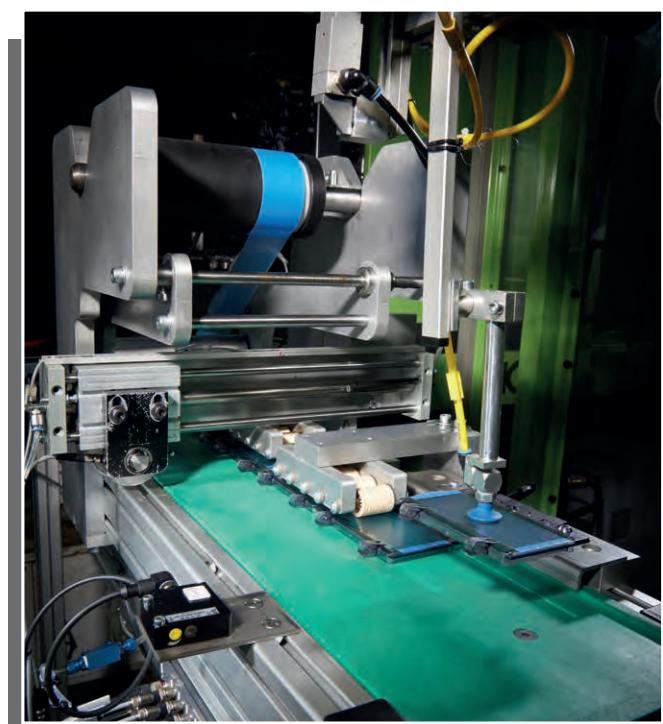

Not just standard products but also variable configurations are part of our day-to-day business

Automatic removal process for our VARIABOX system

State-of-the-art assembly lines with integrated automatic testing machines

... and integrated removal function

QUALITY SIGNED AND SEALED - YOU CAN RELY ON THAT! -

Trust is good but continuous inspection and quality control is better:

To ensure a consistently high level of quality, our products are continuously monitored and inspected in our modern, in-house testing laboratory.

This allows us to validate the various operating and ambient conditions directly on site. In climatic chambers, the high quality standard of our products is tested under realistic conditions across a broad range of temperatures humidity levels.

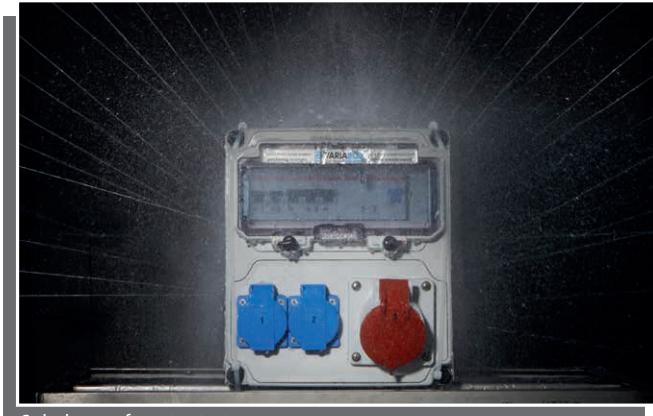

Furthermore, devices for e.g. the glow wire test as well as for dynamic, electrodynamic and thermal-stress testing are also available. The requirements of the protection degree test can be simulated at a splash-water testing facility and in an immersion tank.

We regard the test standard requirements as minimum. The demands that we place on our products go way beyond these requirements.

All test data is continuously collected online or offline and can, on request, be provided as test documentation with the corresponding results.

Long-term test at -40 °C in the climatic chamber

Splash-proof, water test

Modern, in-house test laboratory for ensuring that our high quality standards are met

PARTNERSHIP BASED ON TRUST

- YOUR SUCCESS IS OUR GOAL -

1

You can always rely on Bals products:

300 motivated employees who are deeply committed to the company have just one goal:

To ensure that our customers are fully satisfied.

Individual solutions that function safely and reliably even under adverse operating conditions will make you more successful!

Quality, flexibility and a streamlined organisation are the guiding principles of our internationally experienced management team.

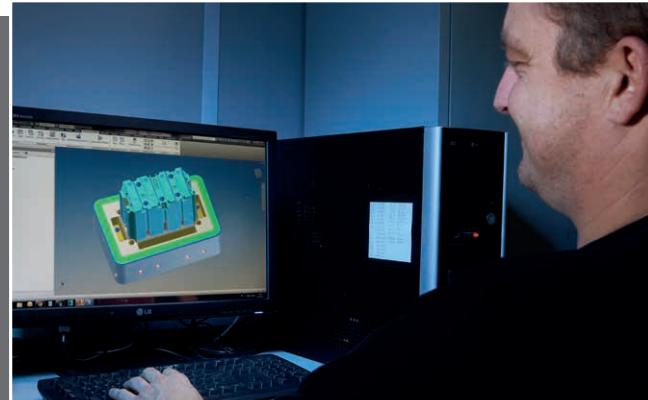

These principles are put into practice by our employees on a daily basis in tried-and-tested products and outstanding service.

Trust us and our sales partners.

Benefit from our experience and expertise.

VARIABOX distributors - series production

The QUICK-CONNECT range leaves no wish unfulfilled

QUICK-CONNECT connection technology 16A and 32A

QUICK-CONNECT connection technology 63A

- Invented in 1998 and patented by Bals: the screwless quick connection technology based on the spring-clamp principle

- Time savings of up to 75% over other conventional connection technologies

- Faster, more reliable and, above all, more controlled conductor connection

- The terminal accepts all types of copper conductors, rigid or flexible, with or without wire end ferrule as well as conductors of all quality grades irrespective of the conductor diameter or conductor insulation

- No wire end ferrules needed

- On delivery, the terminals are open and the contact pressure of the springs is optimally set

- Pressing the contact slide or locking lever with a finger visibly, audibly, reliably and permanently closes the terminal after the stripped conductor has been inserted

- Rewiring is no problem.

Pressing the locking lever or contact slide again releases the conductor; unlike insulation displacement connector technology, the conductor can then be used again without needing further processing steps.

- The damage-free conductor clamping guarantees an optimum connection over the entire service life

- Quick-Connect is maintenance-free, insensitive to shocks, vibrations and temperature fluctuations

Quick-Connect plugs and connectors 16A:	1 mm ² - 2.5 mm ² (flexible conductors)
Quick-Connect panel and Surface Mounting Socket	1.5 mm ² - 4 mm ² (rigid and multi-wire conductors)
Outlets 16A:	
Quick-Connect plugs and connectors 32A:	2.5 mm ² - 10 mm ² (flexible conductors)
Quick-Connect panel and Surface Mounting Socket	2.5 mm ² - 10 mm ² (rigid and multi-wire conductors)
Outlets 32A:	
Quick-Connect plugs and connectors 63A:	6 mm ² - 16 mm ² (flexible conductors)
Quick-Connect panel and Surface Mounting Socket	6 mm ² - 25 mm ² (rigid and multi-wire conductors)
Outlets 63A:	

Multi-Grip available from 16A to 125A

Permanently attached, captive seal

Multi-Grip cable gland achieves protection degree IP67

- Cable gland system with integrated strain relief, invented by Bals in 2002

- The special cable gland is secured against self-loosening and unintentional loosening when inserting and withdrawing the plug by means of a buttress thread

- The rubber seal which is permanently joined to the enclosure cannot be lost. The time-consuming adjustment of the onion rings to the cable diameter is no longer necessary

- Simply tighten the Multi-Grip cable gland for damage-free, airtight and permanent mounting of the cable without any kind of deformation

- Multi-Grip cable glands achieve at least protection degree IP67

- Water no longer remains in the flared opening; it is instead forced out through the drainage openings

- The exterior strain relief system sits against the captive seal and prevents the penetration of water or dirt into the connection cavity of the plug even if the cable is moved

- The tensile strength exceeds the values specified in standards IEC 60309, EN 60309, VDE 0623 many times over

- The condition of the strain relief system can be inspected at any time from the outside without opening the plug enclosure

Multi-Grip easily adapts to almost all cable and wire types! The following cable diameters can be fed in without affecting the tightness or capacity for strain relief.

TE- and TE-Plus plugs	Cable diameter	TLS and QC standard plug and socket	Cable diameter
16A, 3 and 4-pole TE and TE-Plus	Ø8 mm - Ø18 mm	TLS 16A, 3/4/5-pole	Ø8 mm - Ø18 mm
16A, 5-pole TE and TE-Plus	Ø10 mm - Ø21 mm	TLS 32A, 3/4/5-pole	Ø11 mm - Ø23 mm
32A, 3 and 4-pole TE and TE-Plus	Ø11 mm - Ø23 mm	QC standard 16A, 3/4/5-pole	Ø8 mm - Ø18 mm
32A, 5-pole TE and TE-Plus	Ø13 mm - Ø27 mm	QC standard 32A, 3/4/5-pole	Ø11 mm - Ø23 mm
63A, 3 to 5-pole TE and TE-Plus	Ø16 mm - Ø36 mm		
125A, 3 to 5-pole TE	Ø26 mm - Ø50 mm		

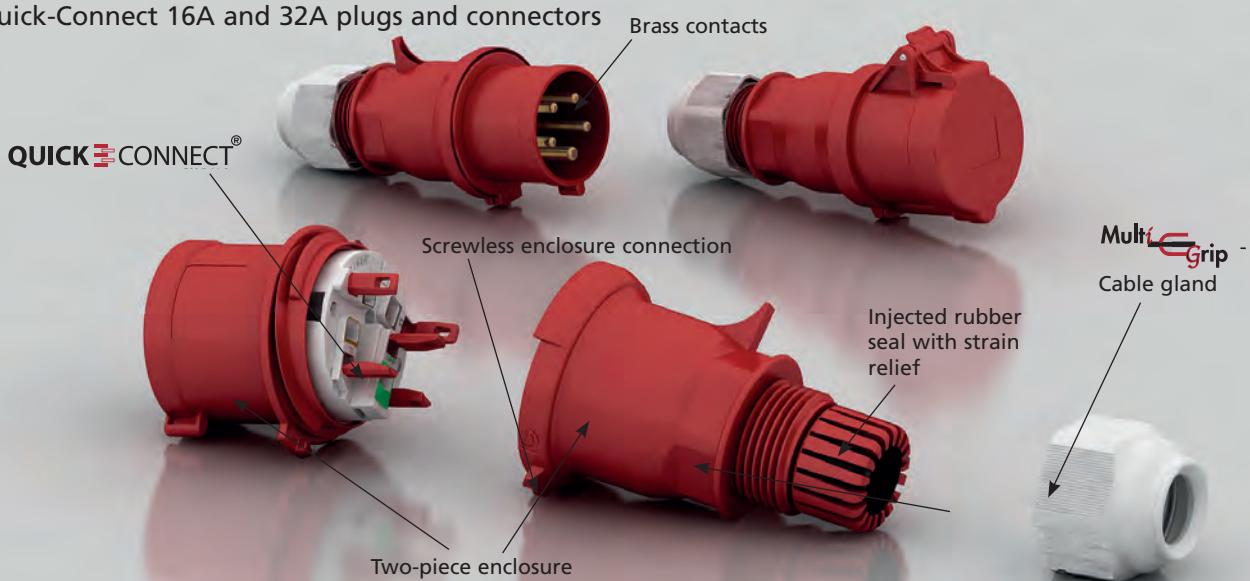

A reducer (type 29129) is available for all 16A plugs and sockets (see page 102). It allows cable diameters of less than Ø 8 mm to be sealed tightly.

OUR PLUG AND SOCKET SERIES

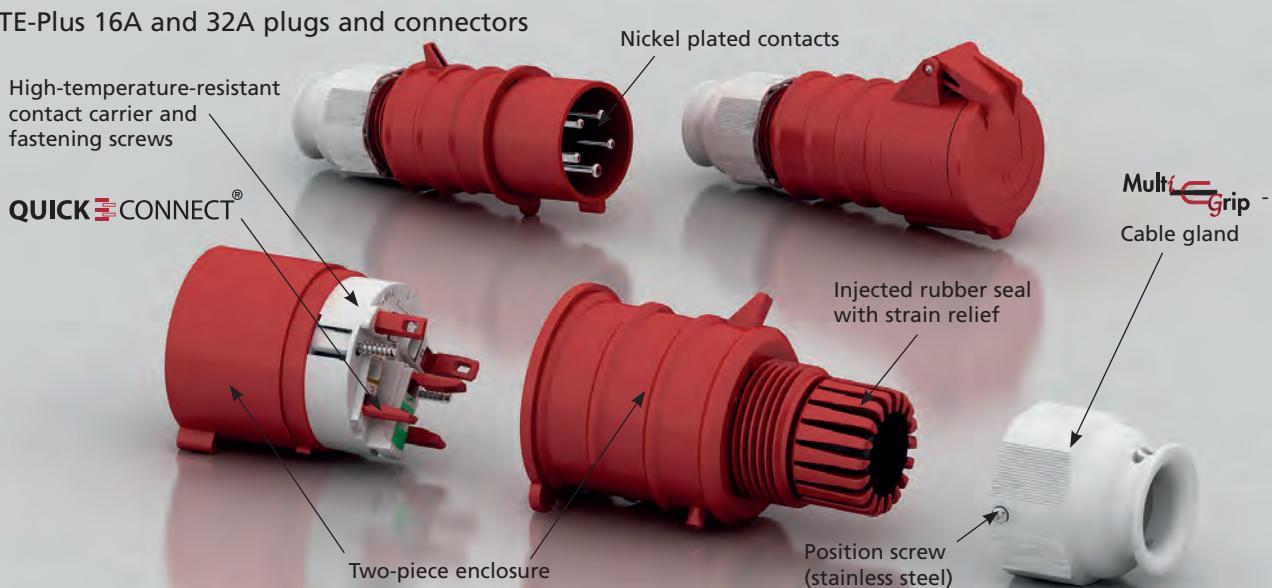

TLS 16A and 32A plugs and connectors

Quick-Connect 16A and 32A plugs and connectors

TE-Plus 16A and 32A plugs and connectors

Domestic Sockets in German or Belgium/ French System in Quick-Connect or screw version

In March 2013, an important change relating to the selection of Domestic Panel Mounting Socket Outlets on distributor systems came into effect in the new version of DIN VDE 0620. With the IPX4 sockets, a distinction is made between stationary and mobile operating conditions. The IPX4 sockets for mobile applications must be equipped with an additional sealing collar which ensures a protection degree of IP44 when connected to an IPX4 plug.

ATTENTION!

Domestic plugs higher than IPx4 (e.g. a Domestic plug IP67) must NOT be used with a mobile IPX4 Domestic socket with sealing collar. The design of these plugs means that there is insufficient contact. Similarly, plugs that do not structurally correspond to IPX4 (e.g. the flat design of the Euro plug) must NOT be used with the above-mentioned sockets. Owing to the different design, it is not possible to guarantee leaktightness.

VARIABOX surface mounting distributor with IP44 Domestic socket for stationary distributors

Mobile distributors with IP44 Domestic socket (with sealing collar) for mobile distributors

- Fuse elements arranged below transparent, lockable operating window with user-friendly OTC mechanism (one touch close). It engages in the open state and locks again automatically when touched lightly
- Coded flange plate system for maximum safety during initial installation and maintenance
- All CEE sockets with screwless, maintenance-free QUICK-CONNECT technology and standardised flange dimensions, therefore independent of manufacturer if necessary
- Colours: bottom - black, top - electro-grey (enclosure top optionally available in the colours yellow, red, blue or silver)
- Surface mounting or mobile distributor versions in the sizes S (1-module), M (2-modules), L (3-modules), XL (4-modules), XXL (5-modules)
- Ready wired for installation
- Available in the protection degrees IP44, IP54 and IP67
- Enclosure made of high-grade, impact-resistant thermoplastic
- Top and bottom can be sealed together
- With external and internal fastening
- The cover screws are captive and can be actuated using a flat-tip or cross-tip screwdriver or using an internal or external hexagon spanner
- Modular expansion on all 4 sides
- Straight top hinged at side

Technical data

- Maximum protection degree IP68
-
- With MODBOX-Midi with user-friendly OTC operating window
-
- Modular expansion on all 4 sides
-
- Yellow end corners for increased safety
-
- Cover available on request with or without rain roof
-
- Hard rubber mixture with hardness grade of 99 shore
-
- Corners and stability framework are made of cured glass-fibre-reinforced polyamide
-
- Outer corners luminous on request
-
- Fully insulated

• Material properties

-
- Impact-resistant
-
- UV-resistant
-
- Halogen-free
-
- Resistant to ageing, temperature, oil and acid
-
- Excellent resistance to chemicals
-
- Flame-resistant, self-extinguishing

FIT FOR THE NEW SWITCHING SYSTEM STANDARDS DIN EN 61439

- SAFE AND STANDARD-COMPLIANT -

The new standard DIN EN 61439:2012 has replaced the previous DIN EN 60439. It describes the design, construction and requirements for low-voltage switchgear assemblies and therefore has a considerable impact on electrical power distribution in industry, for domestic installation and on construction sites.

With Bals Elektrotechnik distributors, you play it safe in every respect: Our most recent distributor generations fully meet the specifications of the new standard.

The basic requirements are defined in DIN EN 61439-1 and adapted to the specifics of the respective application by the addition of corresponding standard sections.

We therefore make a distinction between 3 categories in this product group:

1. Power switchgear assemblies in accordance with

DIN EN 61439-2

2. Installation distributors in accordance with

DIN EN 61439-3

3. Construction site power distributors in accordance with DIN EN 61439-4

All plug and Combinations produced by Bals Elektrotechnik in accordance with the basic standard DIN EN 61439-1 and the corresponding standardisation sections DIN EN 61439-2, 61439-3, 61439-4 can be operated without exception by non-experts.

This includes the connection and disconnection of plug and socket devices as well as the operation of safety elements installed by us, such as miniature circuit breakers or residual current circuit breakers.

The operating elements are installed in such a way that they comply with protection degree IP 2X, which also covers protection degree IP XXB (DIN EN 61439-3 Paragraph 8.2.2. and DIN EN 61439-2 Paragraph 8.101 Note 1).

Non-experts are, of course, not permitted to open the enclosures of live combination units.

For this reason, it is only possible to open our enclosures using a suitable tool.

With Bals Elektrotechnik distributors you meet the specifications of the DIN EN 61439 standards without running any risk with regard to requirements or approval.

I_n	Rated current of assembly	IP	Protection degree
Bals ELEKTROTECHNIK	Typ Made in Germany	IP44	
Spannung voltage	Frequenz frequency	Maße dimension

Information about CEE plugs and sockets for industrial applications

CEE plugs and sockets are internationally standardised by IEC 60309-1,-2 and also EN 60309-1,-2 valid in Europe.

IEC (International Electrotechnical Commission)

International electrotechnical commission responsible for worldwide standardisation in the electrotechnical field.

IECEE CB (IEC System for Conformity Testing to Standards for safety of Electrical Equipment)

IEC system for conformity testing of electrical equipment in accordance with safety standards.

CENELEC (European committee for electrotechnical standardisation)

International electrotechnical commission responsible for European standardisation in the electrotechnical field.

Series of EN 60309 standards

This European standard was ratified by CENELEC. The CENELEC members are obliged to comply with the requirements of the CEN/CENELEC rules of procedure which define the conditions under which this European standard is, without any modification, to be given the same status as a national standard.

This European standard shall exist in two official versions (English, French). A version in a different language that has been translated into the respective national language independently by the CENELEC member and communicated to the Central Secretariat shall have the same status as the official versions.

CEE standard system

To ensure that a plug cannot be inserted into a socket with a different voltage or frequency, the positions of the protective contacts relative to the keyway of the socket collar have been assigned to certain voltages and frequencies.

A groove in the connector collar and a corresponding lug on the plug prevent hazardous confusion between the systems.

Even if this safety device is damaged, hazardous connection of the protective conductor pin and the phase sleeve is still not possible as the protective conductor pin which has a considerably larger diameter than the phase pin cannot be inserted into the phase sleeve.

Bals CEE plugs and sockets for amperages of 16A, 32A, 63A and 125A have sufficient switching capacity in accordance with DIN EN 60309 and can be actuated under load on consumables up to 690 V AC in accordance with DIN VDE 0100; corresponding test documents can be provided on request.

CEE plugs and sockets for amperages of 63A and 125A are equipped with a pilot contact that enables electrical interlocking or monitoring as per DIN EN 60309. This contact closes late when plugging in and opens early when pulling out.

system **QUICK-CONNECT[®]**

In 1998, Bals was the first manufacturer to introduce screwless connection technology based on the spring-clamp system onto the market under the brand name **QUICK-CONNECT[®]**. Today, this technology developed by Bals is accepted and patented worldwide, is VDE-tested and has been approved without restriction.

The entire **QUICK-CONNECT[®]** product range can therefore be used universally, consists of over 700 items and is available in all product categories and the customary protection degrees. Every year, Bals puts over 3 millions units of these unique products on the market worldwide and has consistently adapted its entire production and sales system to this innovation. The products are available from 16A 3p to 63A 5p as plugs, connectors and sockets.

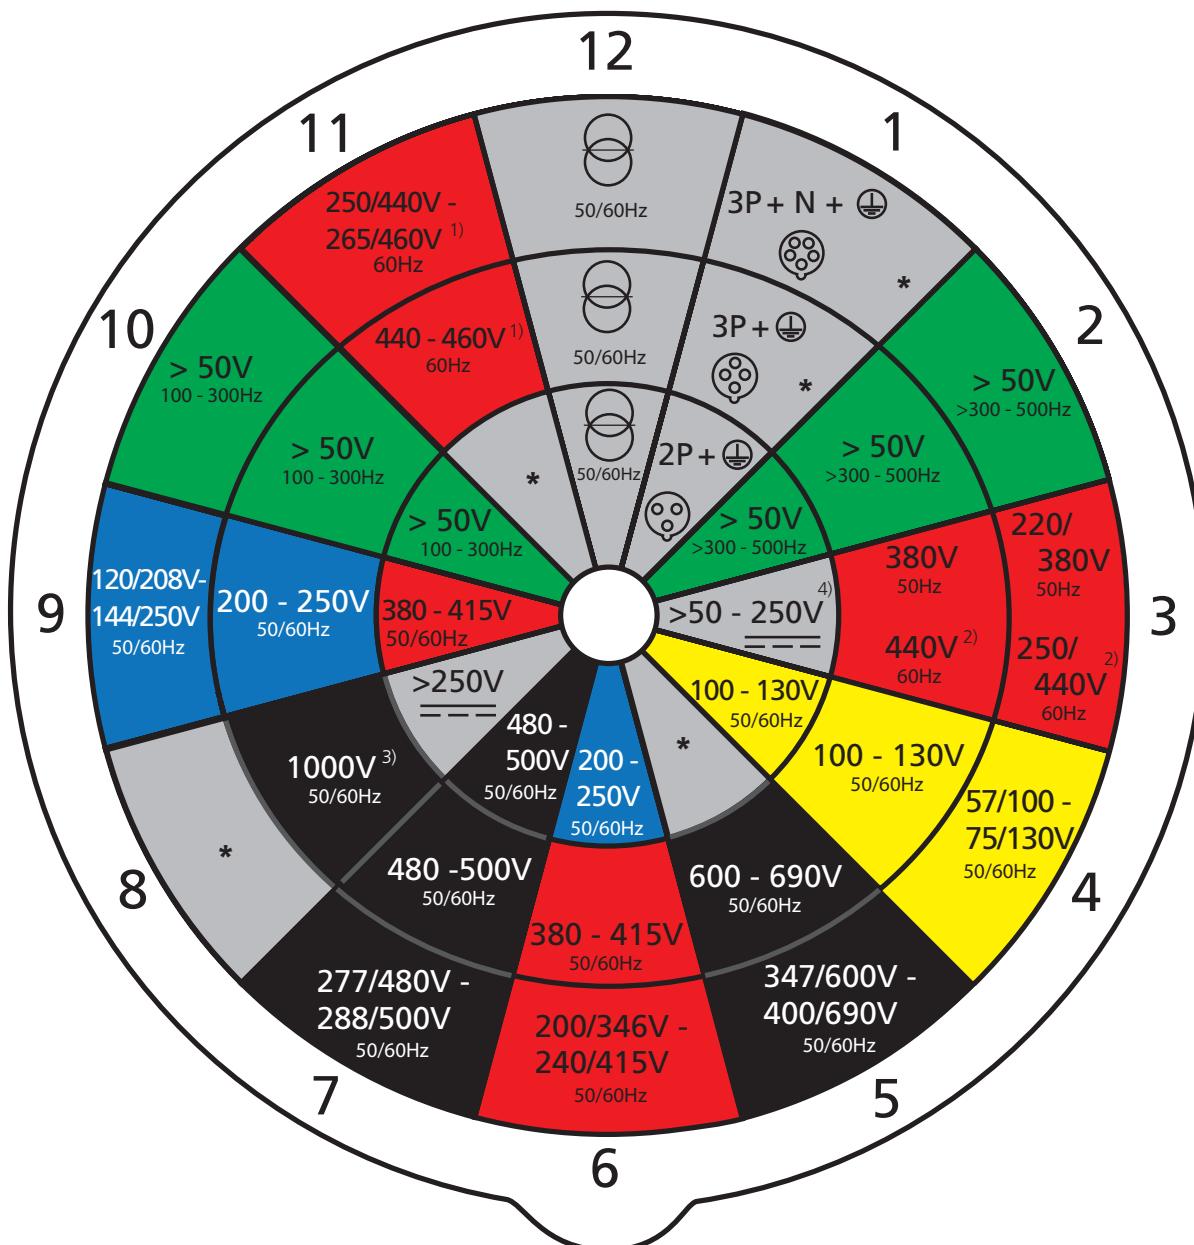

QUICK-CONNECT[®] puts an end to fault-prone threaded connections and prevents the inherent problems associated with insulation displacement connector technology. The time-saving and cost-cutting innovation from Bals is consistently marketed via the three-stage sales channel and, owing to its technical benefits and patented unique characteristics, offers major commercial opportunities for marketing agents and end users.

Bals focuses consistently on its inventions and therefore mentions a large part of the still available screw products only briefly at the end of this catalogue.

More information about the new technologies can be found on page 8 and 9, and on the introduction pages of the individual product groups.

The illustration shows the position of the protective contact of a socket (front view) with rated operating voltages above 50 V, in accordance with DIN EN 60309-2. Plugs and inlets are mirror-inverted.

- ¹⁾ Mainly for ship installations
- ²⁾ For reefer containers only
(ISO standardised)
- ³⁾ For 63A and 125A industrial
plugs and sockets only
- ⁴⁾ PE conductor required

⊕ After transformer

— DC

* All other configurations not covered by the rated operating voltages and/or frequencies.
This clock face position can be additionally used in special applications in which a distinction to standardized positions is required.

Position of the auxiliary lug relative to the basic lug for various voltages up to 50 V and frequencies up to 500 Hz in accordance with DIN EN 60309-2.

Poles	Frequency	Rated operating voltage	Position of auxiliary lug	colour code
2-, 3-poles	50 and 60	20 - 25	none	violet
	50 and 60	40 - 50	12 h	white
	100 - 200	40 - 50	4 h	green
	300	20 - 25 40 - 50	2 h	green
	400	20 - 25 40 - 50	3 h	green
	above 400 - 500	20 - 25 40 - 50	11 h	green

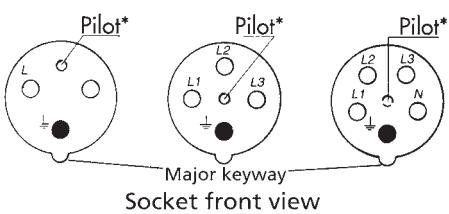

Colour Coding

When the operating voltage is indicated colour codes in addition to the specified labels, the colour code given in the table below should be used:

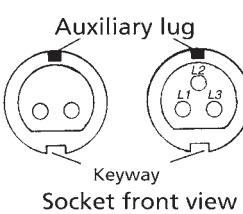

Rated operating voltage or frequency	colour code
20 - 25 V	violet
40 - 50 V	white
100 - 130 V	yellow
200 - 250 V	blue
380 - 480 V	red
500 - 690 V	black
above 60-500 Hz	green

Contact layout for CEE plugs and sockets

Greater than 50 V:

Up to 50 V:

Identification of conductor connections

The connections must be labelled with the following symbols: L1, L2, L3 or 1, 2, 3 for the outer conductors.

The neutral conductor is labelled with N and the earth contact with E.

* only at 63A and 125A

IP protection degrees for enclosures as per DIN EN 60529 (DIN VDE 0470)					IK code as per DIN EN 62262 (VDE 0470)	
1st code digit	Protection of enclosure against penetration by	Protection against contact with	2nd code digit	Protection of enclosure against damage caused by	Code digit	Impact resistance
0	No protection	No protection	0	No protection	0	Not protected according to standard
1	Solid object larger than 50 mm	Back of hand	1	Vertically falling dripping water	01	Energy 0.140 joule
2	Solid object larger than 12.5 mm	Finger	2	Dripping water up to 15° relative to vertical	02	Energy 0.200 joule
3	Solid object larger than 2.5 mm	Tool	3	Spray water up to 60° relative to vertical	05	Energy 0.700 joule
4	Solid object larger than 1 mm	Wire	4	Splashing water from all directions	06	Energy 1 joule
5	Damaging dust deposits		5	Water jet from all directions	07	Energy 2 joule
6	Dust-proof (full protection)		6	Strong water jets	08	Energy 5 joule
	Example of IP67: ⑥Dust-proof (full protection) ⑦Protection against immersion under specific pressure and time conditions		7	Immersion under specific pressure and time conditions	09	Energy 10 joule
			8	Immersion under specific pressure for indefinite time *	10	Energy 20 joule

* Conditions are defined jointly by the manufacturer and end user. Tightening of the test conditions compared to code digit 7.

All Bals plugs and sockets are:

Impact-resistant, even at extremely low temperatures	→ Tested to -25°C
Dimensionally stable, even with high heat generation	→ Glow wire test at 650°C and 850°C
Protected against splashing water, watertight and dust-proof in accordance with protection degrees IP44 and IP67	→ Tests in accordance with DIN EN 60529, e.g. at water depth of 1 m
High switching capacity, can therefore also be connected and disconnected under load	→ Contacts and insert are subjected to a continuous mechanical, electrodynamic and thermal load
Ageing resistant	→ Long-term testing at a temperature of 80°C
Good electrical insulation properties	→ Plastic parts used insulate voltages of ≥ 2500 V~
Dimensionally stable and abrasion-resistant	→ Tested through years of use under harsh operating conditions
Environmentally friendly	→ Plugs and sockets are PVC-free, cadmium-free and halogen-free

The same generally applies for the plug/socket combination systems as for plugs and sockets, whereby here it is particularly important to take resistance against chemicals into consideration. The high-quality plastics and solid rubber used are suitable for the majority of applications. If, however, chemicals are used (e.g. for cleaning tasks in food processing plants), it may be necessary to use a different material (see "Material resistance list" on page 21) or contact us.

■ Resistant □ Conditionally resistant □ Non-resistant

This list contains the most common chemicals.

It provides information on the basic resistance of the listed materials in combination with the listed chemicals. The concentration of the chemicals and the ambient temperature must additionally be taken into consideration. If other chemicals or a combination of chemicals are used, it is essential to perform a precise chemical resistance check.

Inlets	Quick-Connect	1)	2)	PA6	-	-	-
TE inlet	Quick-Connect	PA6.6	Brass (nickel-plated)	PA6	-	-	-

1) 16 + 32A made of PA6
63A made of PA6.6

2) 16 + 32A made of brass
63A made of brass (nickel-plated)

3) 16 + 32A made of PA6
63A made of PC

4) 16 + 32A made of steel
(blue, galvanised)
63A made of stainless steel A2

PA6 (polyamide) and PC (polycarbonate) are high-grade plastics that are predominantly used for plugs, sockets and combinations

PA6.6 (polyamide with glass-fibre content) is a high-grade plastic that is characterised in particular by its high heat resistance

The brass used has a copper content of at least 58%

Withdrawal forces for Multi-Grip cable gland system

Non-binding guidance values.
Subject to technical changes.

Bals produces a complete series of plugs and sockets from 20A 3-wire to 100A 5-wire for countries with UL requirements.

This series contains both the standard range and switched/interlocked plugs and sockets.

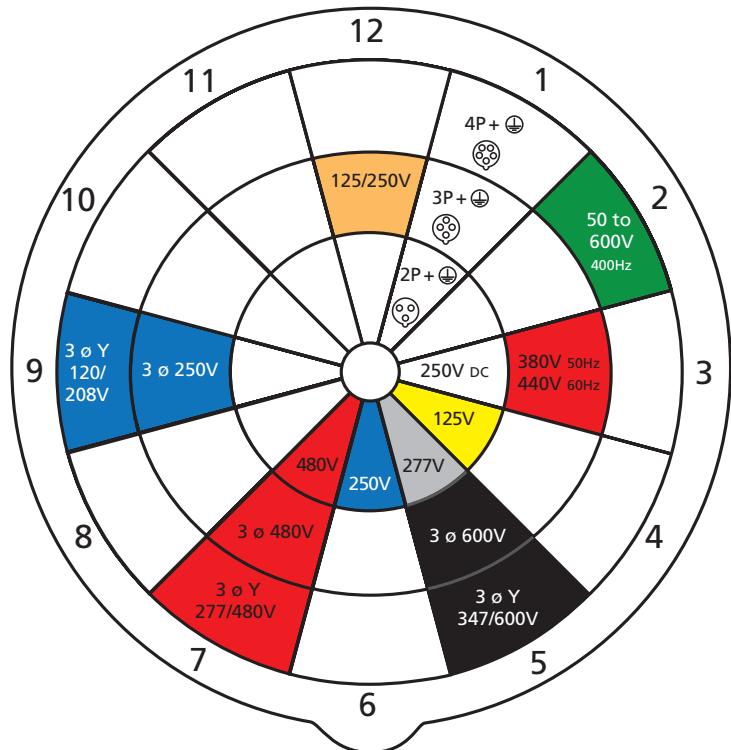

The entire range is certified to UL/CSA.

Our UL articles are not covered in detail in this catalogue.

Please contact us if you require information on these products.

Plugs and sockets

Developed for the markets in North America in accordance with IEC 60309-2 Series II and UL 1686 C2. For international positions of the earth conductor, see page 17 of this catalogue.

Rated currents:
Series II
Ampere
20A
30A
60A
100A

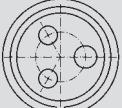

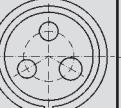

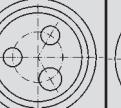

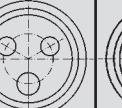

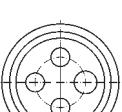

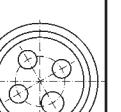

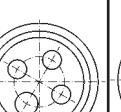

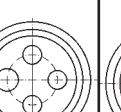

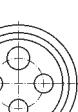

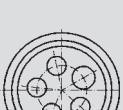

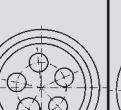

Identification of connection terminals:

X, Y, Z = Phases

W = Neutral conductor (white)

G = Protective conductor (green)

Technical features

Screwless 63A Kontex contact

Kontex contact

- Defined contacting at the sleeve opening by means of the finely adjustable stainless-steel spring with excellent outstanding insertion and withdrawal forces
- High self-cleaning effect when the plug pin is inserted and removed reduces the risk of soiling and therefore failure of the plug and socket
- Terminal accept all types of conductor without problem

Compact Surface Mounting Socket Outlet

Surface Mounting Socket Outlets Quick-Connect

- Cable entry from above
- Removable insert
- Quick-Connect terminals
- External fastening

HKS Panel Mounting Socket Outlet

HKS panel mounting sockets for elegant control, regulation, monitoring, checking

- Additional auxiliary contact switch (HKS) is actuated by the plug
- Available on CEE angled Panel Mounting Socket Outlets 16A and 32A as well as on Domestic sockets
- Electrical plug interlocking possible
- Potential-free switching
- Switching element, e.g. contactor, can be set separately

Quick-Connect terminals

Screwless Quick-Connect terminals 16A and 32A

- All Quick-Connect sockets are touch-safe
- No wire end ferrules necessary
- Pressing the contact slide with your finger closes the terminal
- Reliable and permanent connection by means of spring-clamp technology
- The damage-free conductor clamping guarantees an optimum connection over the entire service life
- Rewiring without additional handling of the conductor

SURFACE MOUNTING SOCKET OUTLETS

- With screwless Quick-Connect technology
- IEC 60309-1/2, EN 60309, VDE 0623
- Protection degree IP44

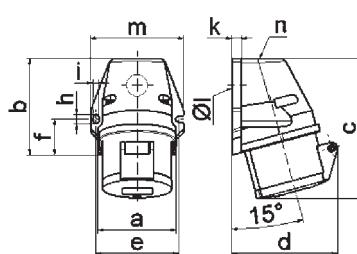

Surface Mounting Socket Outlet Quick-Connect

- Screwless terminals
- Kontex contact
- Cable entry 1x at top (open) and 1x at bottom (closed)
- Protection degree IP44

SURFACE MOUNTING SOCKET OUTLETS, fused

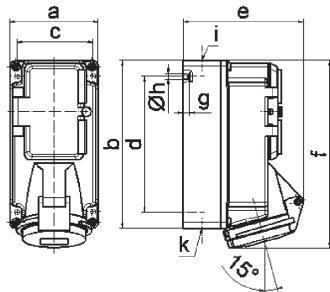

- IEC 60309-1/2, EN 60309, VDE 0623
- Enclosure, window and socket insert made of high-grade plastic
- Protection degree IP44

Surface Mounting Socket Outlet

- With Din rail
- 8 modules
- Kontex contact
- Nickel plated contacts
- Box terminals
- Protection degree IP44

SURFACE MOUNTING SOCKET OUTLETS, switched, fused

- IEC 60309-1/2, EN 60309, VDE 0623
- Enclosure, window and socket insert made of high-grade plastic
- Protection degree IP67

Surface Mounting Socket Outlet

- Switched
- Lockable in 0-position
- With Din rail
- 6 modules for 16A and 32A, 8 modules for 63A
- 63A with box terminals and Kontex contact
- Nickel plated contacts
- Protection degree IP67

SURFACE MOUNTING SOCKET OUTLETS switched, interlocked

- Particularly suitable for harsh operating conditions, especially resistant to aggressive atmospheres
- IEC 60309, EN 60309, VDE 0623
- Protection degree IP67

Surface Mounting Socket Outlet

- Switched
- With mechanical double interlocking
- Lockable in 0-position
- High-temperature-resistant contact carrier
- Nickel plated contacts
- Protection degree IP67

Dimension drawing: see page 46/1 (12 MB 6)

Panel Mounting Socket Outlet

- Straight insertion direction, also suitable for mounting in cable trunking and energy columns
- 16A version for cable trunk socket with mounting dimensions 70 x 70 mm
- 32A version for cable trunk socket with mounting dimensions 60 x 60 mm
- Protection degree IP44

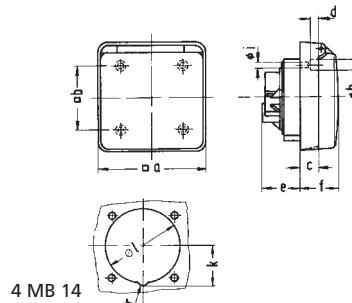

Matching angled plug: see page 80/3

Technical features

Multi-Grip

- Cable gland system with integrated strain relief
- Captive rubber seal
- Multi-Grip cable glands achieve at least protection class IP67
- Adaptation to all cable cross sections
- Status can be checked at any time from outside

The following types of copper conductor can be used

- Fine-wire
- Single-wire
- Finely stranded with wire end ferrules
- With gas-tight crimp
- Ultrasonically welded

Quick-Connect for 16A and 32A

QUICK CONNECT by Bals

16A and 32A

- Patented, screwless quick connection technology, based on the familiar spring-clamp principle, with fully opened connection cavity
- Time saving up to 75%
- Faster, more reliable and controlled conductor connection
- The terminal accepts all types of copper conductors
- Quick-Connect is maintenance-free, shock resistant, vibrations and temperature fluctuations

QUICK CONNECT by Bals

63A

- Worldwide unique screwless system for 63A CEE devices
- Same advantages as for the 16A and 32A systems
- Screwless box terminals
- Cable cross sections for flexible conductors: 6mm^2 - 16mm^2
- Cable cross sections for rigid and multi-wire conductors: 6mm^2 - 25mm^2

PLUGS

■ IEC 60309-1/2, EN 60309, VDE 0623

SURFACE MOUNTING APPLIANCE INLETS

■ IEC 60309-1/2, EN 60309, VDE 0623

■ Protection degree IP67

Surface Mounting Appliance Inlet

- Screw terminals
- Nickel plated contacts
- Terminal for 1 mm² to 2.5 mm² conductor for 16A
- Terminal for 2.5 mm² to 6 mm² conductor for 32A
- Protection degree IP67

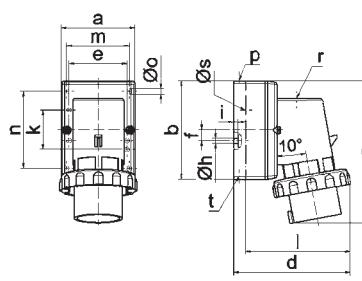

Accessories:

Closure cap: see page 102/3

APPLIANCE INLETS WITH FLANGE

- Particularly suitable for harsh operating conditions, especially resistant to aggressive atmospheres
- IEC 60309, EN 60309, VDE 0623
- Protection degree IP44/ IP67

Appliance Inlet with Flange Quick-Connect TE

- Screwless terminals
- 10° angled
- High-temperature-resistant contact carrier
- Nickel plated contacts
- Protection degree IP44

Dimension drawing: see page 91/1 (5 MB 21)

3 2P+E Ampere	4 3P+E Poles	5 3P+N+E Poles	230V 50-60 Hz	400V 50-60 Hz	500V 50-60 Hz	Qty	g each

Technical features

Simple conductor release

Solid design

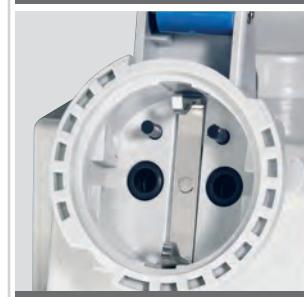

Usable conductor configurations

Domestic Panel Mounting Socket Outlets with Quick-Connect

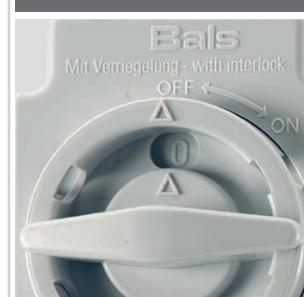

- Screwless connection technology
- Robust terminal and enclosure design
- Special contact technology largely prevents contact deformation that can lead to a rise in temperature
- Captive flange seal
- Available as IP44 or IP54
- Flange dimensions in 50 x 50 mm and 75 x 75 mm
- Versions available for German, Swiss, or Belgian/French system
- Also with child-proof safety feature on request
- Special colours on request
- VDE tested
- Touch-safe in accordance with BGV A3
- Nickel plated contacts

Switched and interlocked

Load-free connection and disconnection

Engraved ON/OFF position

Domestic Surface Mounting Socket Outlet, switched, interlocked

- Switched and electrically interlocked
- Load-free connection and disconnection is guaranteed
- Surface Mounting Socket Outlet can be operated safely both with an IP44 Domestic plug and an IP67 Domestic plug
- Safe
- Simple operation
- Clear state detection owing to engraved ON/OFF position
- Lockable 3x in 0-position

DOMESTIC PANEL MOUNTING SOCKET OUTLETS

VARIABOX-XL DUO	520 x 460 x 145 mm
	Further modular extension possible

- Proper and clearly arranged wiring and an automated safety test guarantee maximum safety

- With their generous cable bushings, modularly connected VARIABOX systems can be internally connected to one another even when using large cable cross sections

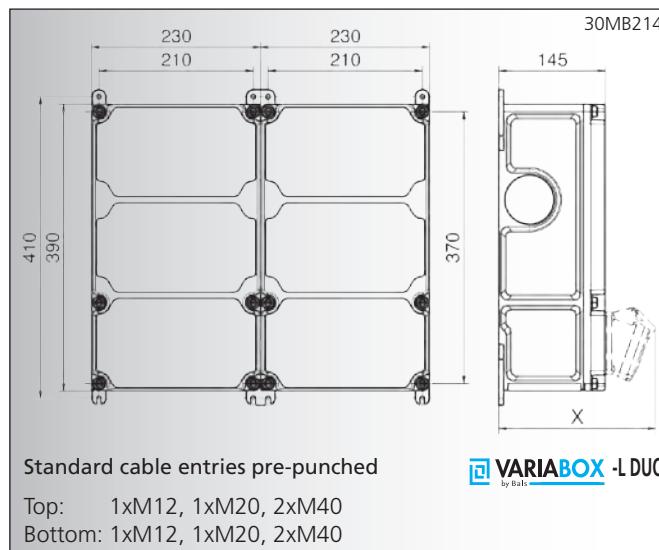

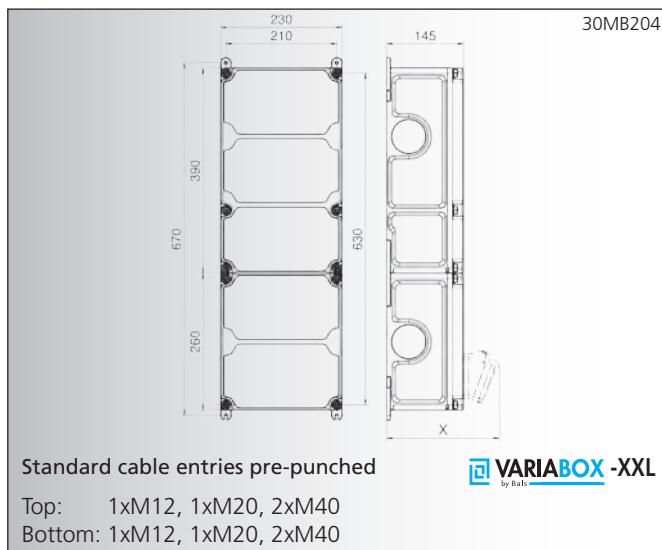

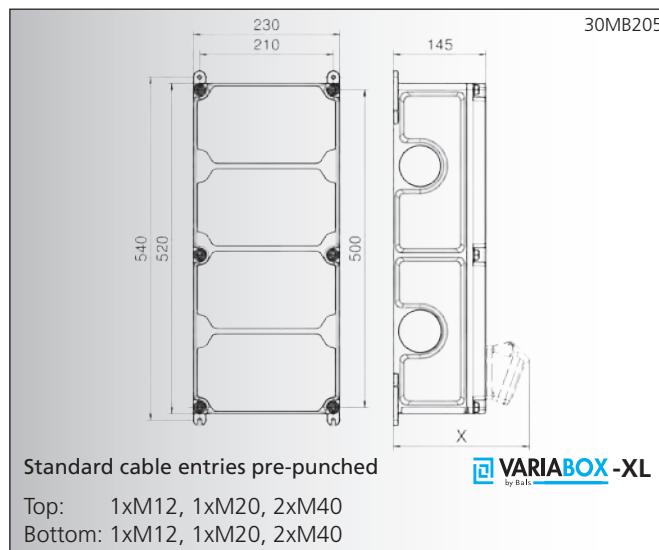

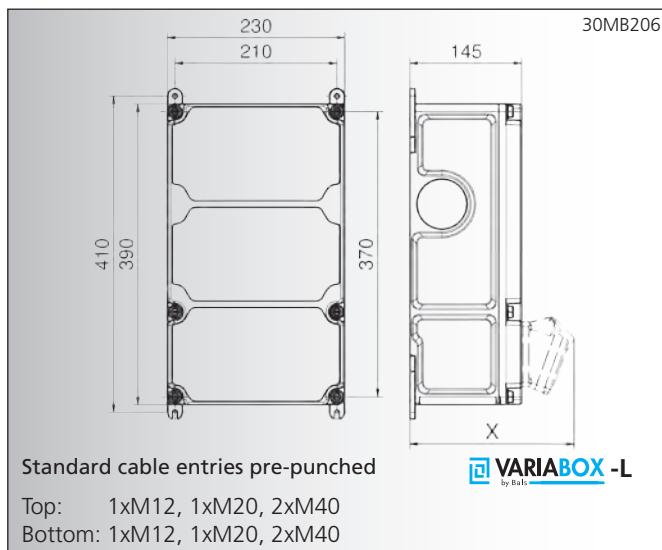

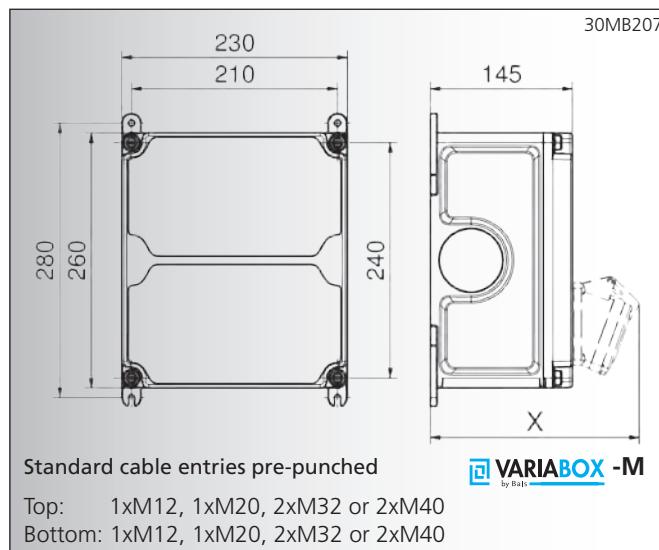

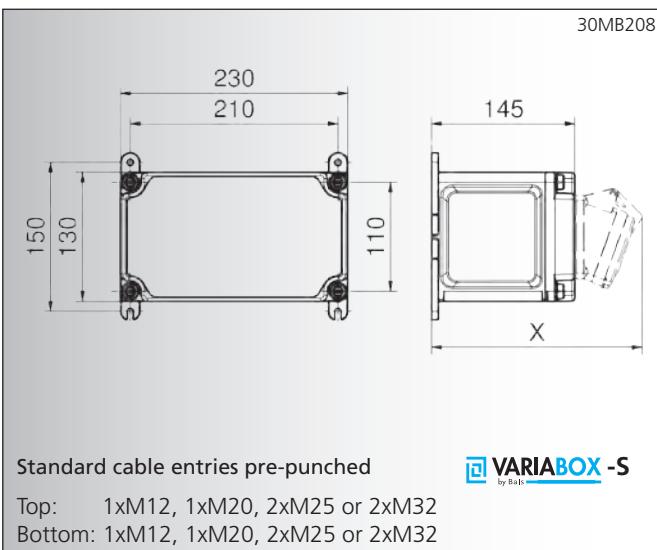

- The new operating window with the unique OTC mechanism (One Touch Close) engages in the open state and automatically closes and locks again when touched lightly
- The enclosure sections and the OTC operating windows can all be lead-sealed
- Either internal or external fastening

- All mounted sockets with maintenance-free QUICK-CONNECT technology
- sockets with flange dimensions 50 x 50 mm, 75 x 75 mm and 85 x 85 mm not manufacturer specific

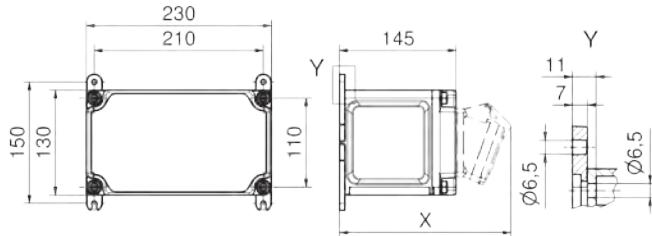

- The metric cable entries at the top and bottom are pre-punched and can be broken out as required without problem. An overview of the enclosure sizes and cable entries can be found on page 4.

each with 1x M12, 1x M20, 2x M25

Connection option:
for 1 cable up to 5 x 6 mm²

VARIABOX-S

Order no. **89006**

Components:

4 domestic sockets 16A, 230V ~
(system F - German earthing System)

Cable entry at top and bottom:
each with 1x M12, 1x M20, 2x M25

Connection option:
for 1 cable up to 5 x 6 mm²

VARIABOX-S

Order no. **89002**

Components:

1 domestic socket 16A, 230V ~
(system F - German earthing System)
1 CEE socket 16A, 400V, 5p

Cable entry at top and bottom:
each with 1x M12, 1x M20, 2x M25

Connection option:
for 1 cable up to 5 x 6 mm²

VARIABOX-S

Order no. **89004**

Components:

2 domestic sockets 16A, 230V ~
(system F - German earthing System)
1 CEE socket 16A, 400V, 5p

Cable entry at top and bottom:
each with 1x M12, 1x M20, 2x M25

Connection option:
for 1 cable up to 5 x 6 mm²

VARIABOX-S

Order no. **89058**

Components:

2 domestic sockets 16A, 230V ~
(system F - German earthing System)
1 CEE socket 32A, 400V, 5p

Cable entry at top and bottom:
each with 1x M25, 1x M32

Connection option:
for 1 cable up to 3 x 4 mm² and
1 cable up to 5 x 6 mm²

VARIABOX-S

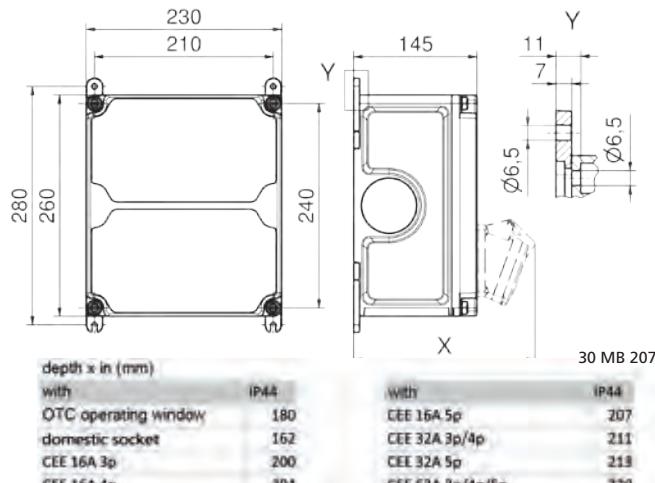

Order no. **89000**

Components:

2 CEE sockets 16A, 400V, 5p

Cable entry at top and bottom:
each with 1x M12, 1x M20, 2x M25

Connection option:
for 1 cable up to 5 x 6 mm²

- Dimension of enclosure: 260 x 230 mm
- Housing made of high-grade, impact-resistant plastic
- Hinged enclosure cover
- Top and bottom can be sealed together
- With external and internal fastening
- User-friendly OTC operating window
- Permanently attached cover screws
- Coded flange plate system for maximum safety during initial installation and maintenance
- Top section straight, CEE sockets angled
- All CEE sockets with screwless, maintenance-free QUICK-CONNECT technology
- Colours: bottom - black, top - electro-grey (enclosure top optionally available in the colours yellow, red, blue or silver)
- Accessories: see page 136

VARIABOX -M

Order no. **89016**

Components:

3 domestic sockets 16A, 230V ~ (system F - German earthing System)

Fuse:

3 C-type MCBs 16A, 1p
1 RCCB 40/0.03A, 4p

Cable entry at top and bottom:
each with 1x M12, 1x M20, 2x M32

Connection option:
for 2 cables up to 5 x 25 mm²

VARIABOX -M

Order no. **890400**

Components:

3 domestic sockets 16A, 230V ~ (system F - German earthing System)
1 double data socket RJ45 CAT 6 IP55

Fuse:

3 C-type MCBs 16A, 1p
1 RCCB 40/0.03A, 4p

Cable entry at top and bottom:
each with 2x M20, 2x M32

Connection option:
for 2 cables up to 5 x 25 mm²

VARIABOX -M

Order no. **89040**

Components:

4 domestic sockets 16A, 230V ~ (system F - German earthing System)

Fuse:

4 C-type MCBs 16A, 1p
1 RCCB 40/0.03A, 4p

Cable entry at top and bottom:
each with 1x M12, 1x M20, 2x M32

Connection option:
for 2 cables up to 5 x 25 mm²

VARIABOX -M

Order no. **89037**

Components:

8 domestic sockets 16A, 230V ~ (system F - German earthing System)

Cable entry at top and bottom:
each with 1x M12, 1x M20, 2x M25

Connection option:
for 1 cable 5 x 6 mm²

VARIABOX -M

Order no. **89044**

Components:

2 domestic sockets 16A, 230V ~ (system F - German earthing System)
1 CEE socket 16A, 400V, 5p

Fuse:

2 Neozed D01, 1p
1 Neozed D01, 3p

Cable entry at top and bottom:
each with 1x M12, 1x M20, 2x M40

Connection option:
for 2 cables up to 5 x 25 mm²

VARIABOX -M

Order no. **89010**

Components:

2 domestic sockets 16A, 230V ~ (system F - German earthing System)
1 CEE socket 16A, 400V, 5p

Fuse:

2 C-type MCBS 16A, 1p
1 C-type MCB 16A, 3p
1 RCCB 40/0.03A, 4p

Cable entry at top and bottom:
each with 1x M12, 1x M20, 2x M40

Connection option:
for 2 cables up to 5 x 25 mm²

VARIABOX -M

Order no. 89015

Components:

2 domestic sockets 16A, 230V ~
(system F - German earthing System)
1 CEE socket 32A, 400V, 5p

Fuse:

2 Neozed D01, 1p
1 Neozed D02, 3p

Cable entry at top and bottom:
each with 1x M12, 1x M20, 2x M40

Connection option:

for 2 cables up to 5 x 25 mm²

VARIABOX -M

Order no. 89013

Components:

2 domestic sockets 16A, 230V ~
(system F - German earthing System)

for 1 cable up to 5 x 10 mm²

Order no. 573671

Components:

6 Domestic sockets 16A, 230V ~
(system F - German earthing System)

Protection:

6 C-type MCBs 16A, 1p
1 RCCB 40/0.03A, 4p

Cable entry:

1x M32

Connection option:

for 1 cable up to 5 x 16 mm²

Order no. 572551

Components:

4 Domestic sockets 16A, 230V ~
(system F - German earthing System)

Protection:

4 C-type MCBs 16A, 1p
1 RCCB 40/0.03A, 4p

Cable entry:

1x M32

Connection option:

for 1 cable up to 5 x 25 mm²

Order no. 572185

Components:

3 Domestic sockets 16A, 230V ~
(system F - German earthing System)
1 CEE socket 16A, 400V, 5p

Protection:

3 C-type MCBs 16A, 1p
1 C-type MCB 16A, 3p
1 RCCB 40/0.03A, 4p

Cable entry:

1x M32

Connection option:

for 1 cable up to 5 x 10 mm²

Order no. 574420

Components:

2 Domestic sockets 16A, 230V ~
(system F - German earthing System)
2 CEE sockets 16A, 400V, 5p

1 compressed air connection:
(inlet: 1/2" pipe with external thread;
outlet: 1/2" quick-release connector)

Protection:

2 C-type MCBs 16A, 1p
2 C-type MCBs 16A, 3p

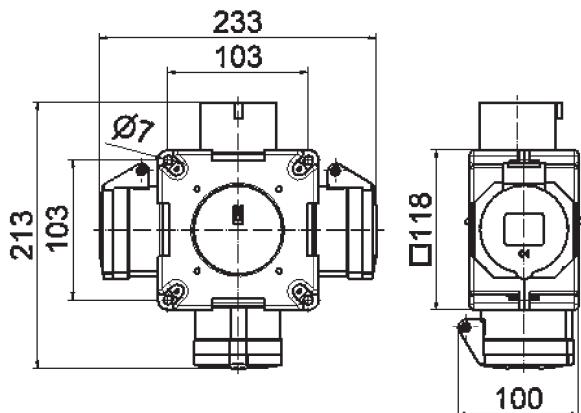

Cable entry:

1x M32

Connection option:

for 1 cable up to 5 x 10 mm²

- Ready wired for installation
- Protection degree IP44
- All distributors on this page with domestic sockets, German earthing

30MB061

- Dimension of enclosure: 118 x 118 mm
- Ready wired for installation
- Enclosure made of high-grade, impact-resistant plastic
- Small, compact design
- Variable configuration
- Hanging bracket made of V2A stainless steel

Order no. 54655**Components:**

2 Domestic sockets 16A, 230V ~
(system F - German earthing System)
1 CEE socket 16A, 230V, 3p

Cable entry/Input::

1 CEE inlet 16A, 230V, 3p

Order no. 54657**Components:**

2 Domestic sockets 16A, 230V ~
(system F - German earthing System)
1 CEE socket 16A, 400V, 5p

Cable entry/Input::

1 CEE plug 16A, 400V, 5p with
1.5 m cable H07RN-F5G2,5

Order no. 54880**Components:**

3 Domestic sockets 16A, 230V ~
(system F - German earthing System)
1 CEE socket 16A, 400V, 5p

Cable entry/Input::

1x M25

Connection option:

for 1 cable up to 5x 2.5 mm²

Order no. 54568**Components:**

3 CEE sockets 16A, 230V, 3p

Cable entry/Input::

1 CEE plug 16A, 230V, 3p with
1.5 m cable H07RN-F3G2,5

Order no. 54566**Components:**

3 CEE sockets 16A, 230V, 3p

Cable entry/Input::

1 CEE inlet 16A, 230V, 3p

Order no. 54569**Components:**

3 CEE sockets 16A, 400V, 5p

Cable entry/Input::

1 CEE plug 16A, 400V, 5p with
1.5 m cable H07RN-F5G2,5

- Ready wired for installation
- Protection degree IP44
- All distributors on this page with domestic sockets, German earthing

Order no. 546

Components:
3 CEE sockets 16A, 400V, 5p

Cable entry/Input::
1 CEE inlet 16A, 400V, 5p

Order no. 54567

Components:
3 CEE sockets 32A, 400V, 5p

Cable entry/Input::
1 CEE inlet 32A, 400V, 5p

Order no. 54740

Components:
2 Domestic sockets 16A, 230V ~
(system F - German earthing System)
1 CEE socket 16A, 400V, 5p

Cable entry/Input::
1x M25

Connection option:
for 1 cable up to 5x 2.5 mm²

Order no. 54929

Components:
4 Domestic sockets 16A, 230V ~
(system F - German earthing System)

Cable entry/Input::
1x M25

Connection option:
for 1 cable up to 5x 2.5 mm²

Order no. 540055

Components:
1 Domestic socket 16A, 230V ~
(system F - German earthing System)
2 CEE sockets 16A, 400V, 5p

Cable entry/Input::
1x M25

Connection option:
for 1 cable up to 5x 2.5 mm²

Order no. 54741

Components:
3 CEE sockets 16A, 230V, 3p

Cable entry/Input::
1x M25

Connection option:
for 1 cable up to 5x 2.5 mm²

Order no. 54580

Components:
2 Domestic sockets 16A, 230V ~
(system F - German earthing System)
1 CEE socket 16A, 400V, 5p

Cable entry/Input::
1 CEE inlet 16A, 400V, 5p

Order no. 54801

Components:
3 Domestic sockets 16A, 230V ~
(system F - German earthing System)

Cable entry/Input::
1x M25

Connection option:
for 1 cable up to 5x 2.5 mm²

Cable Gland

- Black
- Protection degree IP67

Thread	Sealing range	Order no.
M12	3-6 mm	580647
M20	8-13 mm	580648
M25	11-17 mm	580649
M32	15-21 mm	580650
M40	19-28 mm	580651
Multiple sealing insert	for M25 2x8 mm	580652
	for M32 4x8 mm	580653

Cable Gland with Pressure Equalisation

The use of pressure equalisation cable glands allows the internal pressure to adjust to the ambient pressure. The type-tested protection degree of the enclosure is fully retained. Temperature fluctuations, intense sunlight, or a sudden change in weather can cause condensation to form in combination enclosures. Basically, condensation can form in all sealed combination enclosures. The higher the protection degree is, the more likely the formation of condensation will be. We therefore recommend, especially in the case of distributors with protection degree IP67, the use of pressure equalisation cable glands.

- Minimised condensation formation and therefore reduction in downtimes and time-consuming and expensive repair work
- No expensive and high-maintenance ventilation technology required
- No drip holes which reduce the level of protection
- With air ducts for pressure equalisation
- black
- Protection degree IP67

Thread	Sealing range	Order no.
M20	6-13 mm	580656
M25	9-17 mm	580657
M32	13-21 mm	580658
M40	16-28 mm	580659

Mounting Set

- For VARIABOX S - XL
 - Consisting of:
 - 4 screws 6 x 60 mm
 - 4 screw anchors 8 x 51 mm
- Order no. **580640**
-
- For VARIABOX XXL
 - Consisting of:
 - 6 screws 6 x 60 mm
 - 6 screw anchors 8 x 51 mm
- Order no. **580727**

Lock Set

- For OTC window
- With long shackle and 2 keys

Order no. **580642**

Portable Stand

- For VARIABOX M, L, XL
- Hot-dip galvanised steel tubing
- Folding
- Weight 4 kg
- Dimensions: 350/570 x 780 x 540 mm (W x H x D)

Order no. **580643**

Surface Mounting Socket Outlets Unit

- For VARIABOX M and L
- Colour yellow, RAL 1023

Order no. **580641**

5

We live in a fast-moving age. It is also frequently necessary to make modifications to power distribution systems. Power distributors used in industrial buildings, production facilities, laboratories, harbour docks, markets, tunnel, road construction sites and many other locations therefore frequently need to be adapted and are subject to very rough treatment.

The MODBOX® is the ideal solution. The new patented MODBOX® rubber distributor series from Bals Elektrotechnik GmbH combines all the demands placed on current distributors up to a maximum protection degree of IP67. As far as impact resistance is concerned, the MODBOX® leaves no wish unfulfilled.

The material properties of the MODBOX® are unique: its robustness and resistance to ageing, temperature, oil and acid are unbeatable. The MODBOX® is, of course, also fully insulated, UV-resistant and halogen-free as well as flame-resistant and self-extinguishing.

The truly innovative enclosure design allows existing installations to be adapted quickly. Order separation attachments are provided in the enclosure. This makes it easier to install strong-current and weak-current systems.

An outstanding feature is that MODBOX® units can be easily connected next to each as modules without any modifications needing to be made to the basic installation. The MODBOX® is freely configurable. Four openings in the side of the MODBOX® allow modules to be added in any direction. Another new feature are the yellow connecting and end corners. To further improve safety, the luminous end corners (luminescence time up to 7 hours) are recommended.

Configure your own MODBOX® at www.bals.com

User-friendly OTC operating window on MODBOX®-Midi.

Continuous all-round seals provide IP67 protection level

Solid guide rails ensure an extremely high level of dimensional stability, especially at connection between upper and lower part of enclosure

Corners (luminous on request) Standard end corners in yellow, interchangeable (2 or 4).

They allow MODBOX® units to be connected together without problem.

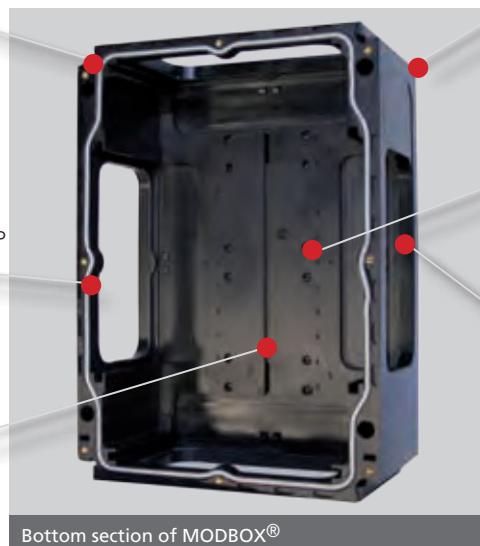

Slot and recess

Slot with ring set sealed to achieve the high IP protection level.

Wedge-shape rubber teeth for increased stability.

Recess in base

Recess provided for order separation if required (strong current and weak current).

Drill holes

4 drill holes ensure a perfect permanent installation.

Cutouts

4 cutouts for attaching the wall mounting anchors.

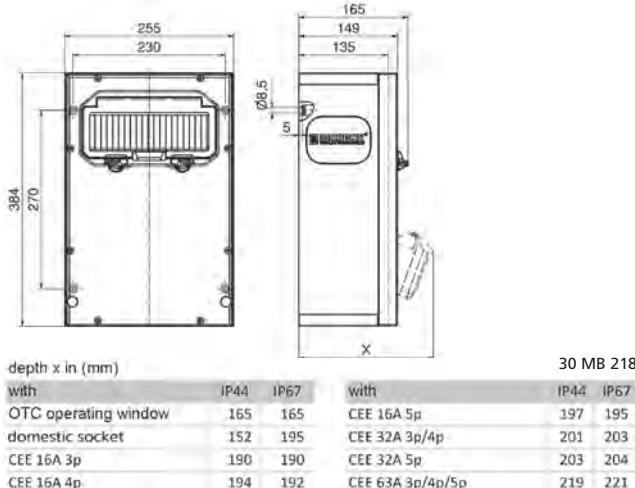

Feedthrough openings

4 openings in the MODBOX® wall facilitate modular expansion of the installation in every direction.

The slide-in connector was developed to ensure perfect connection. The frame, inserted if additional modules are added, ensures additional stability.

In the standard configuration, the feedthrough openings are sealed off using blanking panels.

- Ready wired for installation
- Protection degree IP44
- All distributors on this page with domestic sockets, German earthing

- Dimension of enclosure: 384 x 255 mm
- Enclosure made of high-quality, impact-resistant solid rubber
- User-friendly OTC operating window
- Modular extension
- Hardness grade of 99 shore
- Resistant to ageing, temperature, oil and acid
- Excellent resistance to chemicals
- Flame-resistant, self-extinguishing
- Top section straight, CEE sockets angled
- All CEE sockets with screwless, maintenance-free QUICK-CONNECT technology
- Black top and bottom section with yellow end corners
- Available in various RAL colours
- Accessories: see page 156

MODBOX®-Midi
Order no. 5401882
Components:

3 Domestic sockets 16A, 230V ~
(system F - German earthing System)

Protection:

3 C-type MCBS 16A, 1p
1 RCCB 40/0.03A, 4p

Cable entry at top and bottom:
each with 2x M40

Connection option:

for 2 cables up to 5 x 25 mm²

MODBOX®-Midi
Order no. 5401884
Components:

6 Domestic sockets 16A, 230V ~
(system F - German earthing System)

Protection:

6 C-type MCBS 16A, 1p
1 RCCB 40/0.03A, 4p

Cable entry at top and bottom:
each with 2x M40

Connection option:

for 2 cables up to 5 x 25 mm²

MODBOX®-Midi
Order no. 5401886
Components:

2 Domestic sockets 16A, 230V ~
(system F - German earthing System)

1 C-type MCB 32A, 3p
1 RCCB 63/0.03A, 4p

Cable entry at bottom:
1x M12, 2x M40

Connection option:

for 2 cables up to 5 x 25 mm²

Order no. **5402164**

Components:

2 Domestic sockets 16A, 230V ~
(system F - German earthing System)
2 CEE sockets 32A, 400V, 5p

Protection:

2 C-type MCBs 16A, 1p
2 C-type MCBs 32A, 3p
1 RCCB 63/0.03A, 4p

Cable entry at bottom:
1x M12, 2x M40

Connection option:

for 2 cables up to 5 x 25 mm²

Order no. **5402165**

Components:

3 Domestic sockets 16A, 230V ~
(system F - German earthing System)
1 CEE socket 16A, 400V, 5p
1 CEE socket 32A, 400V, 5p

Protection:

3 C-type MCBs 16A, 1p
1 C-type MCB 16A, 3p
1 C-type MCB 32A, 3p
1 RCCB 63/0.03A, 4p

Cable entry at bottom:
1x M12, 2x M40

Connection option:

for 2 cables up to 5 x 25 mm²

Order no. **5402166**

Components:

3 Domestic sockets 16A, 230V ~
(system F - German earthing System)
2 CEE sockets 16A, 400V, 5p

Protection:

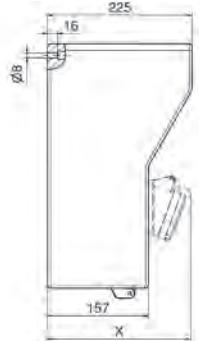

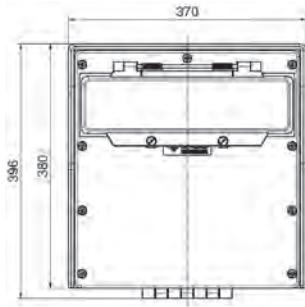

3 C-type MCBs 16A, 1p
2 C-type MCBs 16A, 3p
1 RCCB 40/0.03A, 4p

Cable entry at bottom:
1x M12, 2x M40

Connection option:

for 2 cables up to 5 x 25 mm²

Solid-Rubber Enclosures, Surface Mounting

- Ready wired for installation
- Protection degree IP44
- All distributors on this page with domestic sockets, German earthing

- Dimension of enclosure: 380 x 370 mm
- Enclosure made of high-quality, impact-resistant solid rubber
- Space for up to 18 modules under operating window
- Hardness grade of 97 shore
- Hinged lid
- Resistant to ageing, temperature, oil and acid
- Flame-resistant, self-extinguishing
- All CEE sockets with screwless, maintenance-free QUICK-CONNECT technology

Order no. 5402049

Components:

4 Domestic sockets 16A, 230V ~
(system F - German earthing System)
2 CEE sockets 16A, 400V, 5p
1 CEE socket 32A, 400V, 5p

CEE inlet 32A, 400V, 5p

Order no. 52638

Components:

4 Domestic sockets 16A, 230V ~
(system F - German earthing System)
2 CEE sockets 16A, 400V, 5p

Protection:

1 RCCB 40/0.03A, 4p

Cable entry/Input::

CEE plug 16A, 400V, 5p with
lead 2 m H07RN-F5G2,5

Order no. 5201555

Components:

3 Domestic sockets 16A, 230V ~
(system F - German earthing System)
1 CEE socket 16A, 400V, 5p
1 CEE socket 32A, 400V, 5p

Protection:

3 C-type MCBs 16A, 1p
1 C-type MCB 16A, 3p
1 RCCB 40/0.03A, 4p

Cable entry/Input::

CEE inlet 32A, 400V, 5p

Order no. 52480

Components:

4 Domestic sockets 16A, 230V ~
(system F - German earthing System)
2 CEE sockets 16A, 400V, 5p

Protection:

1 RCCB 40/0.03A, 4p

Cable entry/Input::

CEE inlet 16A, 400V, 5p

Order no. 522589

Components:

6 Domestic sockets 16A, 230V ~
(system F - German earthing System)
2 CEE sockets 16A, 400V, 5p
1 rotary field measuring device

Protection:

3 C-type MCBs 16A, 1p
1 RCCB 40/0.03A, 4p

Cable entry/Input::

CEE phase inverter 16A, 400V, 5p

Order no. 523291

Components:

6 Domestic sockets 16A, 230V ~
(system F - German earthing System)

Protection:

6 C-type MCBs 16A, 1p
1 RCCB 40/0.03A, 4p

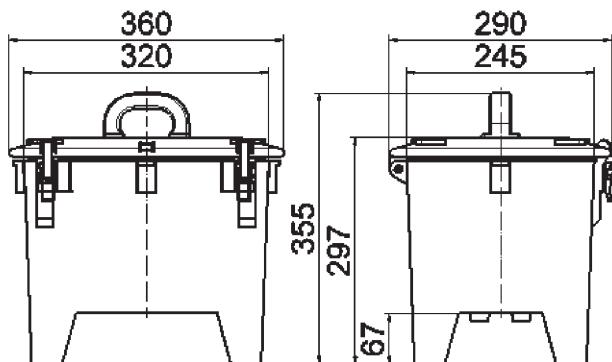

Cable entry/Input::

CEE plug 32A, 400V, 5p with
lead 3 m H07RN-F5G4

FREE-STANDING DISTRIBUTORS

Solid-Rubber Enclosures, Portable

- Ready wired for installation
- Protection degree IP44
- All distributors on this page with domestic sockets, German earthing

13MB036

Order no. 5202239

Components:

4 Domestic sockets 16A, 230V ~
(system F - German earthing System)
2 CEE sockets 16A, 400V, 5p
2 CEE sockets 32A, 400V, 5p

Protection:

4 C-type MCBs 16A, 1p
2 C-type MCBs 16A, 3p
2 C-type MCBs 32A, 3p
1 RCCB 63/0.03A, 4p

Cable entry/Input::

CEE plug 63A, 400V, 5p with
lead 2 m H07RN-F5G10

- Dimension of enclosure: 320 x 245 mm
- Enclosure made of high-quality, impact-resistant solid rubber
- Ideally suited to tough, harsh and difficult conditions
- Robust solid-rubber handle with hook for cable
- Lockable stainless-steel quick-release fasteners
- Hinged lid, user-friendly access to protective equipment
- Stackable, foot attachment on enclosure cover
- High rubber feet to avoid dirt at floor level

Order no. 5202240

Components:

4 Domestic sockets 16A, 230V ~
(system F - German earthing System)
1 CEE socket 16A, 400V, 5p
1 CEE socket 32A, 400V, 5p
1 CEE socket 63A, 400V, 5p

Protection:

2 C-type MCBs 16A, 1p
1 C-type MCB 16A, 3p
1 C-type MCB 32A, 3p
1 RCCB 63/0.03A, 4p

Cable entry/Input::

CEE plug 63A, 400V, 5p with
lead 3 m H07RN-F5G10

Order no. 524443

Components:

4 Domestic sockets 16A, 230V ~
(system F - German earthing System)
3 CEE sockets 16A, 400V, 5p
1 CEE socket 32A, 400V, 5p

Protection:

2 Neozed D01, 1p
3 Neozed D01, 3p

Cable entry/Input::

CEE plug 32A, 400V, 5p with
lead 3 m H07RN-F5G4

Order no. 522167

Components:

4 Domestic sockets 16A, 230V ~
(system F - German earthing System)

Multiple sealing insert		
for M25	2x8 mm	580652
for M32	4x8 mm	580653

Cable Gland with Pressure Equalization

The use of pressure equalization cable glands allows the internal pressure to adjust to the ambient pressure. The type-tested protection degree of the enclosure is fully retained. Temperature fluctuations, intense sunlight, or a sudden change in weather can cause condensation to form in combination enclosures. Basically, condensation can form in all sealed solid-rubber distributors. The higher the protection degree is, the more likely the formation of condensation will be.

We therefore recommend, especially in the case of distributors with protection degree IP67, the use of pressure equalization cable glands.

- Minimised condensation formation and therefore reduction in downtimes and time-consuming and expensive repair work
- No expensive and high-maintenance ventilation technology required
- No drip holes which reduce the level of protection
- With air ducts for pressure equalization
- black
- Protection degree IP67

Thread	Sealing range	Order no.
M20	6-13 mm	580656
M25	9-17 mm	580657
M32	13-21 mm	580658

Mounting Set

- For MODBOX and MODBOX-Midi
- Consisting of:
 - 4 screws 6 x 60 mm
 - 4 screw dowels 8 x 51 mm

Order no. **580640**

Portable Stand

- For MODBOX and MODBOXMidi
- Hot-dip galvanised steel tubing
- Folding
- Weight 4 kg
- Dimensions: 350/570 x 780 x 540 mm (W x H x D)

Order no. **580721**

Lock set

- For MODBOX operating window
- With locking cylinder and 2 keys

Order no. **58037-BE**

- For MODBOX-Midi OTC window
- With long shackle and 2 keys

Order no. **580642**

Power-Port Free-Standing Distributor without door

- Only for MODBOX-Midi
- Enclosure dimensions 1300 x 350 x 275 mm (H x W x D)
- Enclosure made of high-quality V2A stainless steel
- Ground metal surface
- Moveable panel for concealing cables
- Base plate suitable for pedestal mounting
- Available in different colours (optional)

Order no. **580589**

Power-Port Free-Standing Distributor with door

- Only for MODBOX-Midi
- Enclosure dimensions 1300 x 350 x 415 mm (H x W x D)
- Enclosure made of high-quality V2A stainless steel
- Ground metal surface
- Moveable panel for concealing cables
- Base plate suitable for pedestal mounting
- Door with box lock and single profile cylinder, internal hinges
- Brush seal prevents dirt and dust from entering when door is closed
- Outgoing cables can be guided out through brush-sealed opening on front side
- Available in different colours (optional)

Order no. **580508**

- Special gland, simultaneous cable gland and seal
- Protection degree IP44

Dimension drawing: see page 78/2 (2 MB 93 under 5-pole)

Fig.: Type 210067

Ampere	Poles	230V 50-60 Hz	400V 50-60 Hz	Qty	g
16	7	210550	21557	10	220
32	7	210636	210067	10	345

Surface Mounting Appliance Inlet TE

- Screw terminals
- High-temperature-resistant contact carrier
- Nickel plated contacts
- Protection degree IP44

Dimension drawing: see page 82/1 (5 MB 45 under 5-pole)

Fig.: Type 24196

Ampere	Poles	230V 50-60 Hz	400V 50-60 Hz	Qty	g
16	7	24193	24194	10	340
32	7	24195	24196	10	420

Connector TE with Multi-Grip

- Screw terminals
- High-temperature-resistant contact carrier
- Nickel plated contacts
- Special gland, simultaneous cable gland and seal
- Protection degree IP44

Dimension drawing: see page 99/2 (3 MB 62 under 5-pole)

Fig.: Type 310123

Ampere	Poles	230V 50-60 Hz	400V 50-60 Hz	Qty	g
16	7	310311	31752	10	250
32	7	310381	310123	10	395

7-POLE PLUGS AND SOCKETS

- For plugs and sockets: polarity switchover circuits/ star-delta circuit
- Protection degree IP67

Surface Mounting Socket Outlet TE

- Screw terminals
- High-temperature-resistant contact carrier
- Nickel plated contacts
- Protection degree IP67

Dimension drawing: see page 30/3 (1 MB 8 under 5-pole)

Ampere	Poles	230V 50-60 Hz	400V 50-60 Hz	Qty	g each
16	7	11634	11542	1	495

Fig.: Type 11542

Surface Mounting Socket Outlet TE

- Screw terminals
- High-temperature-resistant contact carrier
- Nickel plated contacts
- Protection degree IP67

Dimension drawing: see page 31/1 (1 MB 14 under 5-pole)

Ampere	Poles	230V 50-60 Hz	400V 50-60 Hz	Qty	g each
32	7	11635	11714	1	875

Fig.: Type 11714

Panel Mounting Socket Outlet TE

- Screw terminals
- High-temperature-resistant contact carrier
- Nickel plated contacts
- Flange 75 x 75 mm
- Protection degree IP67

Dimension drawing: see page 245/2 (4 MB 5 under 5-pole)

Ampere	Poles	230V 50-60 Hz	400V 50-60 Hz	Qty	g each
16	7	13330	13331	10	230
32	7	13332	13333	10	320

Fig.: Type 13333

Panel Mounting Socket Outlet TE

- Screw terminals
- 20° angled
- High-temperature-resistant contact carrier
- Nickel plated contacts
- Flange 100 x 92 mm
- Protection degree IP67

Fig.: Type 12397

Ampere	Poles	230V 50-60 Hz	400V 50-60 Hz	Qty	g each
16	7	12394	12395	10	245
32	7	12396	12397	10	335

Plug TE with Multi-Grip

- Screw terminals
- High-temperature-resistant contact carrier
- Nickel plated contacts
- Special gland, simultaneous cable gland and seal
- Protection degree IP67

Fig.: Type 21669

Ampere	Poles	230V 50-60 Hz	400V 50-60 Hz	Qty	g each
16	7	21711	21667	10	255
32	7	21712	21669	10	405

Accessories: closure cap, see page 102/3
Dimension drawing: see page 79/1 (2 MB 94 under 5-pole)

Connectors TE with Multi-Grip

- Screw terminals
- High-temperature-resistant contact carrier
- Nickel plated contacts
- Special gland, simultaneous cable gland and seal
- Protection degree IP67

Fig.: Type 31515

Ampere	Poles	230V 50-60 Hz	400V 50-60 Hz	Qty	g each
16	7	31512	31513	10	295
32	7	31514	31515	10	465

Dimension drawing: see page 100/2 (3 MB 63 under 5-pole)

7-POLE PLUGS AND SOCKETS

- For plugs and sockets: polarity switchover circuits/ star-delta circuit
- Protection degree IP44, IP67

Surface Mounting Socket Outlet TE

- High-temperature-resistant contact carrier
- Nickel plated contacts
- Switched
- Lockable in 0-position
- Protection degree IP44

Dimension drawing: see page 45/2 (12 MB 24 under 5-pole)

Fig.: Type 16374

Ampere	Poles	230V 50-60 Hz	400V 50-60 Hz	Qty	g
16	7	16441	16374	1	1105

Surface Mounting Socket Outlet TE

- High-temperature-resistant contact carrier
- Nickel plated contacts
- Switched
- With mechanical double interlocking
- Lockable in 0-position
- Protection degree IP44

Dimension drawing: see page 45/2 (12 MB 24 under 16A, 5-pole) for 16A, 7p
page 45/2 (12 MB 24 under 32A, 5-pole) for 32A, 7p

Fig.: Type 16378

Ampere	Poles	230V 50-60 Hz	400V 50-60 Hz	Qty	g
16	7	16445	16378	1	220
32	7		160438	1	345

Surface Mounting Socket Outlet TE

- High-temperature-resistant contact carrier
- Nickel plated contacts
- Switched
- With mechanical double interlocking
- Lockable in 0-position
- Protection degree IP67

Dimension drawing: see page 46/2 (12 MB 11 under 16A, 5-pole) for 16A, 7p
page 46/2 (12 MB 11 under 32A, 5-pole) for 32A, 7p

Fig.: Type 16380

In the case of hinged windows for use with DIN screws (order no. 58036), add -GWE to the end of the order number.

Order no. **58037-BE**

Lock set

- Protection against unauthorised use by means of retrofittable lock

Order no. **58036**

DIN screw

- For additional locking device
- Retrofittable

Can only be used in operating windows with order No.-GWE.

IEC

Marking of electric devices is defined in IEC 60079-0 issued in 2004 for explosive gas atmospheres and in IEC 61241-0 issued in 2004 for areas with combustible dusts. In addition to the manufacturer's name or trade mark, type designation, serial number, and the test centre with certificate number, a special coding is required that describes the intended use of the device:

- > Ex-symbol
- > Symbol of every type of protection that has been applied
- The associated electrical devices that are meant to be installed in the hazardous areas, have to be marked with the symbols for the type of protection in squared brackets, e.g. Ex d[ia] IIC T4.
- > Group II, IIA, IIB or IIC for potentially explosive gas atmospheres
- > Temperature class for areas with potentially explosive gas atmospheres or max. surface temperature in °C for areas in which combustible dusts may be present.

Examples:

Ex d IIC T4
Ex d [ia] IIB T5
Ex mbD T120°C

The types of protection have to clearly show which level they achieve. Some types of protection already contain the appropriate symbol (e.g. ia). With others the letter a, b or c has to be added d > db

Example:

Ex db eb IIC T4
Ex db [ia] IIB T5

The second variant (called alternate marking in the standard) is preferentially used.

With this standard, groups for areas where potentially explosive dusts may be present have been introduced as well:

IIIA: combustible flyings
IIIB: non-conductive dust
IIIC: conductive dust
Example for marking of dust:
Ex tb IIIB T120°C

Europe

In Europe, in addition to the marking according to the standard the requirements pursuant to EC-Directive 94/9/EC (ATEX 95) have to be met as well:

- > Manufacturer's address
- > Symbol and the identification number of the notified body
- > and category 1, 2 or 3, as well as group II and the letter G (gases) or D (dust)

Example: 2 II G

Previously, »Ex« was replaced by »EEx« in Europe, if the marking was done pursuant to the standard. Reference has thus been made to the European Standards (EN 50014 ff), which differed from the IEC-standards at that time. With the current editions of the standards this is no longer required, thus devices in Europe are only marked »Ex« now as well.

Up until now standards for non-electrical devices have only been developed by CEN in Europe. Such standards do not yet exist on an international level. Marking closely follows the marking of electrical devices.

Exceptions:

- > Ex is not stated, as with ATEX the -sign already refers to explosion protection
- > Ignition protection level is not given. Alternative marking is not used either. The equipment protection level has to be defined with the category.

A summary of the topic marking of electrical and non-electrical devices can be found in the enclosure 7.7 and 7.8.

Russia

Marking of explosion-protected electrical equipment is done according to GOST R 51330.0-99 and according to the standards for the individual types of protection.

Marking of explosion protection contains:

- > the level of explosion protection
- > Ex-symbol
- > symbol of the types of protections that have been applied
- > equipment group (I, II or IIA, IIB, IIC)
- > temperature class symbol X, when special conditions have to be observed for safe use or if the product is an Ex-component.

North America

In addition to such data as for example, manufacturer, type, serial number and electrical data, data concerning explosion protection must be included in the marking of the equipment. Specifications are given in NEC, CEC and the respective construction regulations of the test centres.

Class I, II & III, Division 1 and 2

Approved electrical equipment for Class I, Class II and Class III, Division 1 and Division 2 has to be marked with the following data:

1. Class(es), Division(s)
(optional, except for Division 2)
2. Gas-/dust-group(s)
3. Operating temperature or temperature class
(optional for T5 and T6)

Example: Class I Division 1 Groups C D T4

Class I, Zone 0, 1 and 2

For equipment for use in Class I, Zone 0, Zone 1 or Zone 2 a difference is made between »Division Equipment« and »Zone Equipment«.

(1) Division Equipment

Equipment approved for Class I, Division 1 and/or Class I, Division 2 may be marked with the following data:

1. Class I, Zone 1 or Class I, Zone 2
2. Gas group(s) IIA, IIB or IIC
3. Temperature class
4. Types of protection

Example: Class I Zone 1 d,e IIC T4

(2) Zone Equipment

Equipment complying with several types of protection pursuant to Article 505 of NEC and section 18 of CEC have to be marked as follows:

1. Class (optional in Canada)
2. Zone (optional in Canada)
3. Symbol AEx (USA) or Ex or EEx (Canada)
4. Symbol of the type(s) of protection that have been applied
5. Group of the electrical equipment II or gas group(s) IIA, IIB or IIC
6. Temperature class

Example: Class I Zone 0 AEx ia IIC T6

Group

- Various versions:
- Extra-low voltage, 16A
- Large handle, can be locked in position 0 and 1
- German switch position indicator
- Optimal contact by means of self-cleaning laminated contacts
- Low plugging and pulling forces through floating pins

Various versions

- With motor switching capacity AC-3 acc. to IEC/EN 60947-3
- Optional auxiliary contacts for control and signalling purposes
- IP66 in any application position

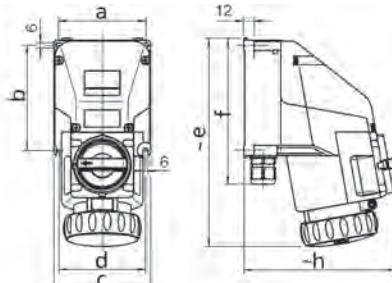

Surface Mounting Socket Outlet

- For use in Zone 2 and 22
- Large handle, can be locked in position 0 and 1
- Optimal contact by means of self-cleaning laminated contacts
- Low plugging and pulling forces
- With motor switching capacity AC-3 acc. to IEC/EN 60947-3
- Optional auxiliary contacts for control and signalling purposes
- IP66 in any application position
- Acc. to EX II 3 G EEx nAC IIC T6 (16A), EX II 3 G EEx nAC IIC T6,T5 (32A)
- Cable entry: 1x M25 & 1x sealing plug M25 (16A),
1x M32 & 1x sealing plug M32 (32A)

**Plug - Extra-Low Voltage**

- For use in Zone 2 and 22
- 16 A version for extra-low voltages up to 50 V
- Low plugging and pulling forces through floating pins
- Protection degree IP54
- Acc. to EX II 3 G EEx nAC IIC T6, T5
- Temp. -20...+40°C, (-50...+55°C on request)
- Cable diameter 11...21 mm

E-V-E DISTRIBUTION UNITS/ IT NETWORK DISTRIBUTION UNITS

- Ready wired for installation
- Protection degree IP44

30 MB 173

Order no. 591

Components:

1 CEE socket 16A, 400V, 5p

Cable entry:

1 CEE inlet 16A, 400V, 5p

Order no. 592

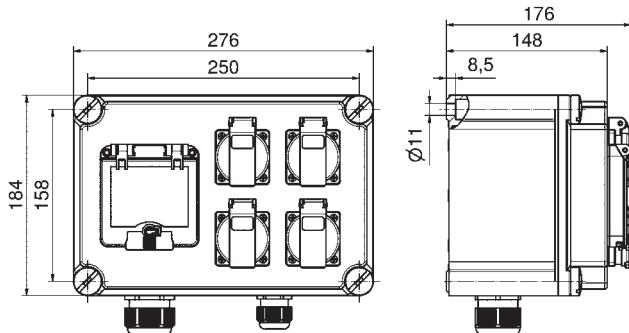

Components:

1 CEE socket 32A, 400V, 5p

Cable entry:

1 CEE inlet 32A, 400V, 5p

- Dimension of enclosure: 211 x 116 mm
- Ready wired for installation
- Enclosure made of high-grade, impact-resistant plastic
- Small, compact design
- Variable configuration

30 MB 229

VARIABOX -S

Order no. 893059

Components:

8 RJ45 Cat. 6 socket inserts 8-pole shielded under transparent window

Cable entry:

2 x M32 with
Multiple sealing insert 4 x 8 mm

- Dimension of enclosure: 276 x 184 mm
- Ready wired for installation
- Enclosure made of high-grade, impact-resistant plastic
- Window
 - lockable
 - with protection against accidental contact and label field
 - with locking function for orderly cable routing

VARIABOX -S

Order no. 893058

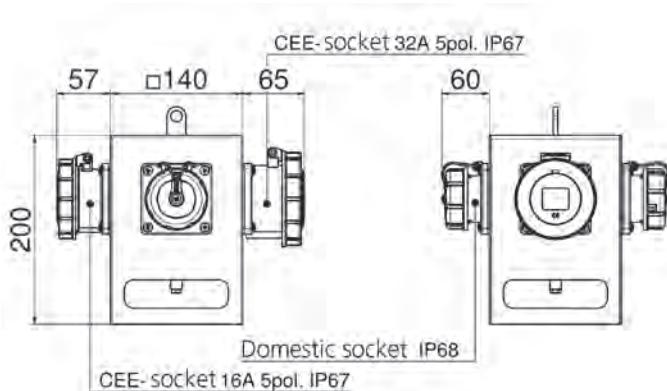

Components:

2 Domestic sockets 16A, 230V ~ (system F - German earthing System)
4 RJ45 Cat. 6 socket inserts 8-pole shielded under transparent window

Cable entry:

1 x M20
1 x M32 with
Multiple sealing insert 4 x 8 mm

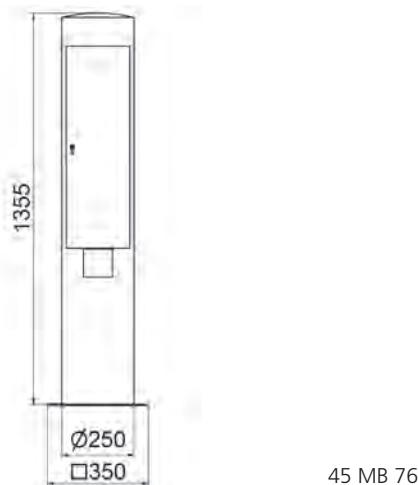

- Dimension of enclosure: 140 x 140 mm
- Enclosure made of high-quality V4A stainless steel
- Brushed surface
- Suitable for food industry and hygienic areas
- Easy-to-clean surface
- With hanging clips and recessed handles

45 MB 53

- Dimension of enclosure: 1355 x 250 mm
- Made of robust, hot-dip galvanised steel enclosure
- Ideal for safe energy distribution outdoors
- Vandal-proof owing to internally hinged door
- Lockable door with cylinder lock
- Cable outlet in door allows locking in connected state
- Safe protection of fuse elements behind operating window
- Suitable for base mounting
- RAL 7016; other colours possible on request
- Concrete base: see page 260

Order no. 561090

Components:

2 Domestic sockets 16A, 230V ~
(system F - German earthing System)
1 CEE socket 16A, 400V, 5p
1 CEE socket 32A, 400V, 5p

Protection:

2 C-type MCBs 16A, 1p
1 C-type MCB 16A, 3p
1 C-type MCB 32A, 3p
1 RCCB 40/0.03A, 4p

Connection option:for 2 cables up to 5 x 25 mm²

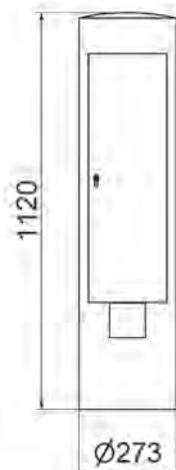

Order no. 562372

Components:

2 Domestic sockets 16A, 230V ~
(system F - German earthing System)
2 CEE sockets 16A, 400V, 5p

Protection:

2 C-type MCBs 16A, 1p
2 C-type MCBs 16A, 3p
1 RCCB 40/0.03A, 4p

Connection option:for 2 cables up to 5 x 25 mm²

- Dimension of enclosure: 1120 x 273 mm
- Protection degree IP44
- Made of robust, hot-dip galvanised steel enclosure
- Ideal for safe energy distribution outdoors
- Vandal-proof owing to internally hinged door
- Lockable door with cylinder lock
- Cable outlet in door allows locking in connected state
- Suitable for base mounting
- RAL 7016; other colours possible on request
- Concrete base: see page 260

Order no. 562389

Components:

2 Domestic sockets 16A, 230V ~
(system F - German earthing System)
1 CEE socket 16A, 400V, 5p

Protection:

2 C-type MCBs 16A, 1p
1 C-type MCB 16A, 3p
1 RCCB 40/0.03A, 4p

Cable entry:

2x M40

Connection option:for 2 cables up to 5 x 25 mm²

Order no. 562390

Components:

3 Domestic sockets 16A, 230V ~
(system F - German earthing System)

Protection:

3 C-type MCBs 16A, 1p
1 RCCB 40/0.03A, 4p

Cable entry:

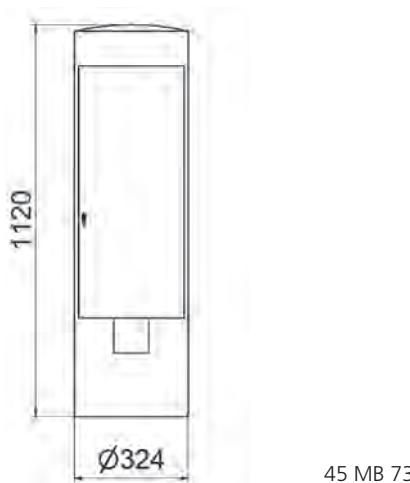

2x M40

Connection option:for 1 cable up to 5 x 10 mm²

WE OFFER APPRENTICESHIPS IN THE FOLLOWING PROFESSIONS:

- Industrial business manager
- Technical product designer
Machine and plant engineering
- Specialist for warehouse logistics
- Toolmaker
Mould engineering
- Process technician for plastic and rubber technology
Moulded parts
- Cutting machine operator
- Electronic engineer
Operations technology

You can find information about our apprenticeships on our website!

GENERAL TERMS AND CONDITIONS OF BUSINESS, SALE AND DELIVERY

Bals Elektrotechnik GmbH & Co. KG

1. Scope of applicability, master agreement, contract conclusion

- 1.1 The following Terms and Conditions shall apply exclusively for our deliveries and services to entrepreneurs (§ 14 of the German Civil Code (BGB)). Any purchasing terms and conditions to the contrary are not legally enforceable, even if we do not explicitly reject them. By placing an order and/or accepting the delivery thereof, the buyer acknowledges acceptance of our terms and conditions.
- 1.2 An order becomes binding for us once we have issued a written confirmation or upon having begun to fulfil the order. All agreements concluded between us and the ordering party for the purpose of performance of this contract are recorded in writing in this contract.
- 1.3 The following terms and conditions apply to existing business relationships as well as to future business dealings which do not specifically make reference to them.

2. Offers, cost estimates, prices and the reserved right to make price changes

- 2.1 Our offers, as well as the prices and delivery options stated in our catalogues, printed materials, letters, etc. are subject to change without notice; cost estimates are non-binding.
- 2.2 All orders shall only be accepted on the basis of prices valid at the time of order placement. Our prices are understood to be in euro, ex works, exclusive of the respective VAT, and excluding freight, customs duty, additional import fees, packaging and insurance, which may possibly have to be charged separately.
- 2.3 With respect to all orders – including call-off orders and multiple delivery contracts – for which the delivery, as provided for in the contract or at the request of the ordering party, takes place later than four months after order placement, we are authorised within the scope of the order and as compensation to pass along to the ordering party any material and labour price increases occurring between contract conclusion and actual delivery.
- 2.4 For new orders (including follow-up orders), we are not obligated to any previous prices.

3. Commercial and intellectual property rights

- 3.1 The sales documents made available by the selling party – such as drafts, drawings, advertising and video material – shall still remain property of the selling party even if proportional costs have been remunerated for this purpose by the buyer.
- 3.2 The selling party unrestrictedly reserves all of his commercial rights, intellectual property rights and exploitation rights to cost estimates, drawings and other documents (hereinafter referred to as: Documents). The documents may only be made accessible to third parties upon the prior consent of the selling party, and must be – in the event that the order is not issued to the selling party – promptly returned to the selling party at his request. Clauses 1 and 2 apply correspondingly to documents of the buyer; these may however be made accessible to those third parties whom the selling party has permissibly commissioned to carry out deliveries.

4. Shipping, costs, transfer of risk

- 4.1. We deliver ex works (EXW Incoterms 2010). Even in the case of deliveries made free of charge, the buyer shall bear the risk of shipping. Transport insurance will be arranged by us only upon the express request of the buyer in accordance with an agreement to be concluded in an individual case at the buyer's expense.
- 4.2 If shipment is delayed due to circumstances for which we bear no responsibility, then the transfer of risk shall take

place on the day that the buyer has been notified of the readiness for shipment.

5. Packaging

- 5.1 Insofar as nothing to the contrary has been agreed, we shall select the type of packaging.
- 5.2 If the goods have been billed according to weight, then the usage of packaging and wrapping material shall be calculated at a price according to the gross weight.
- 5.3 Special, not commercially customary packaging material shall be charged extra.
- 5.4 Upon the written request of the buyer, the goods shall be insured at his own expense against risks to be determined by him.

6. Delivery deadlines and liability provisions, acceptance obligation in case of blanket orders and call-off orders, return deliveries

- 6.1 The delivery period shall begin as soon as all delivery details have been clarified, both parties agree on all of the terms and conditions of the transaction and the ordering party has effected payment of an agreed instalment, if applicable. The delivery deadline has been complied with if, until it expires, either the delivery item has departed the plant or the ordering party has been notified as to its readiness for shipment.
- 6.2 The adherence to our delivery obligation within the agreed delivery deadline further presupposes the prompt, correct and complete fulfilment of all obligations on the part of the buyer. The right to objection of the non-fulfilment of contract remains reserved.
- 6.3 If our delivery does not take place in adherence to the deadline and also not within an extended deadline – which must consist of at least 20 workdays – set by the ordering party, due to reasons for which we bear responsibility, then the ordering party is entitled to void the ordered delivery.
- 6.4 In the event of subsequent order amendment, we are no longer bound to the originally assured and confirmed delivery deadline.
- 6.5 Subsequent order amendments, quantity changes and cancellations can only be accepted if they do not entail any costs for us; otherwise, we shall be compelled to charge the buyer for the costs.
- 6.6 In case of contracts with continuous delivery, the arrangement according to class and type must be communicated to us in due time. If call-offs of partial quantities are not communicated in due time, we shall be authorised to – after first having set an indisputable extended deadline – designate and deliver partial quantities ourselves, or alternatively to withdraw from the non-fulfilled portion of the contract as per the further prerequisites of Paragraph 6.8 and to require indemnification as restitution for the ensuing loss that we suffer. The right to enforcement of further damage claims as might possibly arise remains undiminished.
- 6.7 The regulation in Paragraph 11 shall apply for compensation claims due to delayed fulfilment or non-fulfilment in lieu of performance.
- 6.8 If force majeure or circumstances for which we cannot be held accountable (e.g. operational disruptions, strikes) hinder us in the punctual fulfilment of the order, we are then entitled in order to fulfil assumed obligations to reasonably postpone delivery or, if the hindrances consequently make contract performance impossible, to withdraw from the contract in whole or in part. The same holds true if we have not received delivery of material at all, or with delay, from our suppliers which we have ordered from them and which is required for fulfilment of the order, due to reasons for which we cannot be held accountable. The prerequisite for a withdrawal is that we promptly inform the ordering party about the unavailability and, as the case may be, immediately refund

any consideration provided by the ordering party. Claims for indemnification of any kind are hereby excluded.

- 6.9 Partial deliveries are permissible.

7. Quality guidelines for production and delivery

- 7.1 Tolerances:
As a rule, we apply quality assurance methods to our production, which as a minimum comply with ISO 9001 requirements. Production is carried out based on the respectively applicable testing and assessment guidelines, as well as the tolerances for weight, dimensional and quantity variations specified therein.
- 7.2 Production processes
The selling party thereby reserves the right to change the production processes insofar as the buying party has not required any restrictions or information obligation with regard to them.

8. Retention of title

- 8.1 We shall retain title to the delivery item (goods subject to retention of title) until all of our accounts receivable due from the ordering party from the business relationship, including any accounts receivable which might arise in the future – comprising those contracts concluded at the same time or at a later date, have been settled. In case of running accounts, the retained title and all rights apply as collateral for our entire current account balance claims, together with interest and costs. In the event of seizures or other intervention by third parties, the ordering party must immediately inform us.
- 8.2 The ordering party is authorised to process and resell the delivery item in the ordinary course of business. This authorisation shall end if the ordering party is in payment default, or additionally in case of the cessation of payments by the ordering party, or if the opening of insolvency proceedings has been filed against the assets of the ordering party (default / enforcement event). The ordering party is obliged to resell the item delivered under reservation of title only under the condition of title retention and to ensure that the accounts receivable derived from the resale are transferred to us as per 8.5. Also regarded as resale is if the goods subject to retention of title are used to fulfil works contracts and works-supply contracts. The ordering party is not entitled to any other dispositions regarding the goods subject to retention of title, particularly the pledging of goods or transfer of security. An assignment of accounts receivable from the transfer of our goods subject to retention of title is not permitted, unless it is a matter of an assignment within the course of true factoring, which must be shown to us and for which the value of the factoring proceeds exceeds the amount of our secured receivables. Our accounts receivable are due immediately once the factoring proceeds have been credited.
- 8.3 Pursuant to Art. 950 of the BGB, the ordering party does not acquire ownership of a new item through the treating and processing of the goods subject to retention of title. The processing or transformation is undertaken for us without obligating us. The treated and processed goods are regarded as goods subject to retention of title.
- 8.4 In the case of processing, combining and mixing of the goods subject to retention of title with other goods, our claim entitlement to co-ownership of the new good amounts to the proportional invoice value of the goods subject to retention of title in comparison with the invoice value of the other goods used. If our property rights are rendered null and void through combining, mixing or processing, consequently the ordering party shall immediately transfer to us the property rights and expectancy rights pertaining to the new form of the item to

GENERAL TERMS AND CONDITIONS OF BUSINESS, SALE AND DELIVERY

- which he is entitled proportionate to the invoice value of the goods subject to retention of title and, in the case of processing, proportionate to the invoice value of the goods subject to retention of title vis-à-vis the invoice value of the other goods used, and maintain custody of it for us free of charge. Our co-ownership rights are regarded as goods subject to retention of title.
- 8.5 The accounts receivable of the ordering party derived from the reselling of the goods subject to retention of title are to be assigned to us now by way of security. These serve as collateral in the same scope as the goods subject to retention of title. If the goods subject to retention of title are resold by the ordering party together with other goods, then the accounts receivable derived from the resale shall be assigned to us proportionately to the invoice value of the goods subject to retention of title vis-à-vis the invoice value of the other goods. In the event of a resale of the goods for which we hold co-ownership shares as per 8.4, a share of the accounts receivable shall be assigned to us corresponding to our co-ownership share. Other accounts receivable which take the place of the goods subject to retention of title or which otherwise arise with respect to the goods subject to retention of title - such as insurance claims and claims from a breach of duty or an unlawful act - shall also be assigned. The ordering party is irrevocably entitled to collect the accounts receivable assigned to us in his own name. We may revoke the direct debit mandate in the case of a default / enforcement event.
- 8.6 The ordering party authorises us to inform the customer of the assignment and to collect the accounts receivable as soon as the default / enforcement event occurs. We can require a review of the status of the assigned accounts receivable by our agents based on the book-keeping of the ordering party. The ordering party must provide us with a list of the residual goods subject to retention of title and all information necessary for asserting the assigned accounts receivable, including a list of his accounts receivable from the resale of the goods subject to retention of title with the name and address of the customer.
- 8.7 If the value of the existing collateral exceeds the total secured receivables by more than 10%, then at the request of the ordering party we are obligated to release collateral to that extent, at our discretion and in observance of the interests of the ordering party. The collateral value is regarded as the invoice value for simple and subsequent retention of title at which the ordering party procures the goods from us, and for extended retention of title the invoice value at which the ordering party resells our goods, each with a valuation discount of one third of the subscription price or the nominal value of the assigned accounts receivable.
- 8.8 In the event of cheques or other means of payment, payment is only then regarded as having been made after secured posting of the sum by the ordering party. We shall only accept cheques on account of performance. Payments that have been made against the transfer of a cheque or another means of payment are only then considered as having been remitted once a reversal to us is precluded. Notwithstanding our extended collateral rights, the collateral ceded to us up to this point in time continues to exist.
- 8.9 Based on the retention of title, we can require the possession of the delivery item if we have withdrawn from the contract. We are authorised to withdraw without taking into account any of the further prerequisites of Art. 323 of the BGB, in particular without having to set a deadline, from that point in time at which the ordering party has defaulted on payment in whole or in part. The same holds true if the ordering party has ceased payment or if the opening of insolvency proceedings has been filed against the assets of the ordering party. All costs arising from the repossession of the delivery item shall be borne by the ordering party. We are authorised to freely dispose of the reclaimed delivery item.
9. **Notification of defects, claims for defects, liability provision**
- 9.1 Notwithstanding the continued duty of inspection, notification, and rejection due in a mutual commercial transaction, the ordering party is obligated to inspect the delivered goods for apparent flaws and report to us in writing any complaints with respect to such apparent flaws – this also applies to incomplete or incorrect deliveries – within one week after having received the goods; and, furthermore, with respect to flaws which only later become apparent, within one week after they have been detected by the ordering party. Otherwise, the goods shall be regarded as having been accepted, also with regard to apparent flaws, and the ordering party can thus not derive any rights therefrom with respect to us. This does not apply to a direct sale to a private consumer. In the event of legitimate notification of defects, we are obligated to rectification of the flaw of the delivered goods free of charge or, at our discretion, replacement delivery. If the rectification or replacement delivery fail despite two attempts, or if we unjustifiably refuse these or cause un-conscionable delay, then the ordering party is entitled to abatement of the remuneration or, if construction work is not object of the liability for defects, to require rescission of the contract at his discretion.
- 9.2 Subject to the regulation in Paragraph 11, the following applies for compensation claims:
- 9.3 Claims for defects are unwarranted if the flaw is traceable back to a violation of the operating, maintenance or installation specifications, unsuitable or improper use, incorrect or negligent handling by the ordering party and natural wear and tear, as well as due to intervention undertaken in the delivery item by the ordering party or third parties.
10. **Terms and conditions of payment and consequences in case of non-compliance, offsetting**
- 10.1 Insofar as nothing to the contrary has been agreed, our accounts receivable are to be paid free of postage and other charges within 30 days after having received our invoice or an equivalent statement of accounts receivable, at the latest however 30 days after the due date and receipt of the consideration provided. For payments remitted thereafter we shall charge interest at an annual rate of 8%.
- 10.2 In case of drafts and cheques, payment is only then regarded as having been remitted after the sum has been posted. Discounts and charges shall be borne by the ordering party.
- 10.3 We shall only accept drafts and cheques on account of performance, and drafts only upon special agreement. Independent of the term period of accepted drafts or a granted forbearance, our accounts receivable are due immediately if the ordering party does not adhere to the terms and conditions of payment or circumstances that could cast doubt on his creditworthiness become known. Furthermore, in a case such as this we are authorised to only carry out deliveries against payment in advance or the provision of collateral, or to withdraw from the contract after a reasonable extended deadline, and/or to require indemnification.
- 10.4 Only counterclaims that are undisputed or have been legally determined to be valid can be off-set by the ordering party vis-à-vis our accounts receivable. A right of retention is excluded unless the counterclaim is undisputed, has been stated as legally binding or is ready for decision.
11. **Liability for compensation (limitations and exclusions)**
- 11.1 If essential contractual obligations - major obligations whose fulfilment allows the proper execution of the contract and on whose fulfilment the ordering party may rely - are breached, we shall also be liable in the event of simple negligence; however, any claims are limited to compensation for damages which were foreseeable and typical of the contract at the time of the contract conclusion.
- 11.2 Otherwise - unless the breach of an essential contractual obligation is concerned and subject to the following Paragraph 11.4 - our liability for compensation shall be limited to damages resulting from a grossly negligent breach of duty on the part of our legal representatives or agents, regardless of the legal grounds and including an unlawful act, insofar as this involves culpability. Indirect damages or damages resulting from defects to the delivery item are only eligible for compensation if such damages are typically expected from the intended use of the delivery item.
- 11.3 The aforementioned liability exclusions and limitations shall apply to the same extent in favour of our bodies, legal representatives, employees and other agents.
- 11.4 The aforementioned liability exclusions and limitations shall not apply for damages as a result of injury to life, limb or health based on a negligent breach of duty on our part or an intentional or negligent breach of duty on the part of our legal representatives or agents. Similarly, claims from a warranty or according to the Product Liability Act shall not be affected by this.
12. **Place of performance, competent court of jurisdiction and applicable law**
- 12.1 Place of performance is the location of our supplying factory.
- 12.2 The place of jurisdiction for contracts with merchants, legal entities under public law and separate funds under public law is the registered office of the Bals contracting company. We reserve the right, however, to take action against the ordering party before the competent courts for his registered office.
- 12.3 For all deliveries and services from German Bals companies, German law shall apply for transactions within the EU with the exception of the UN Convention on the International Sale of Goods; the UN Convention on the International Sale of Goods shall apply for international transactions with companies outside of the EU along with German law if the former does not contain any appropriate regulations. For Bals companies which are not based in Germany, the respective law in that country shall apply, with the UN Convention on the International Sale of Goods taking priority.
